OFFICERS OF INSTRUCTION

The following is the list of officers of instruction for the year 1933-34, but includes the names of new officers for the year 1934-35 so far as they have been appointed at the time of publication.

BANCROFT BEATLEY, A.M., Ed.D.

President

JANE LOUISE MESICK, Ph.D., Litt.D.

Dean

HENRY LEFAVOUR, Ph.D., LL.D.

President, Emeritus

SARAH LOUISE ARNOLD, A.M., Ed.D.

Dean, Emerita

JEFFREY RICHARDSON BRACKETT, Ph.D.

Professor of Social Economy, Emeritus

LESLIE LYLE CAMPBELL, Ph.D.

Professor of Physics, Emeritus

ANTOINETTE ROOF

Associate Professor of Education, Emerita

ELIZABETH MAY GOODRICH

Associate Professor of Institutional Management, Emerita

DEPARTMENT OF ART

LYLE KENNETH BUSH, A.M.

Instructor in English and Art

DEPARTMENT OF BIOLOGY AND HEALTH

CURTIS MORRISON HILLIARD, A.B.

Professor of Biology and Public Health

CAROLINE MAUDE HOLT, Ph.D.

Associate Professor of Biology

EDITH ARTHUR BECKLER, S.B.

Assistant Professor of Public Health

SUSIE AUGUSTA WATSON, A.B., R.N., S.B.

Assistant Professor of Biology and Nursing

CATHERINE JONES WITTON, A.M.

Assistant Professor of Biology

WILLIAM AUGUSTUS HINTON, S.B., M.D.

Lecturer on Wassermann Technique

ISABEL LINSCOTT SARGENT, A.B.

Instructor in Biology

FLORENE CORA KELLY, S.B.

Instructor in Biology

FLORENCE LYNDON MEREDITH, S.B., M.D.

Lecturer on Hygiene

OUIDA CROUSE MONTAGUE, S.B.

Special Instructor in Hospital Laboratory Methods

MARY ISABEL NEWTON, S.B., A.M.

Instructor in Biology

PHILIP MORRISON RICHARDSON, S.B.

Instructor in Biology

GENEVIEVE YOUNG, S.B.

Assistant in Biology

DEPARTMENT OF CHEMISTRY

KENNETH LAMARTINE MARK, PH.D.

Professor of Chemistry, and Director of the School of General Science

GORHAM WALLER HARRIS, PH.D.

Associate Professor of Chemistry

FLORENCE CELIA SARGENT, S.B.

Assistant Professor of Chemistry

RAYMOND ELWOOD NEAL, S.B.

Assistant Professor of Chemistry

LALIA CHARLTON PRATT, S.B.

Instructor in Chemistry

INA MARY GRANARA, S.B.

Instructor in Chemistry

FLORENCE WETHERBEE MARK, S.B.

Special Instructor in Chemistry

LUELLA DUDLEY, S.B.

Instructor in Chemistry

BLEENDA CHRISTINA THORMER, S.B.

Special Instructor in Chemistry

DEPARTMENT OF ECONOMICS

SARA HENRY STITES, PH.D.

Professor of Economics

LUCILE EAVES, PH.D.

Professor of Economic Research

MORRIS FRIEDBERG, A.M., Docteur de l'Université de Paris

Assistant Professor of Economics

FELIX IRA SHAFFNER, LITT.B., PH.D.

Instructor in Economics

JOHN WILLIAM FLEMING, S.B.

Instructor in Economics

ALLAN BROCKWAY LATHAM, PH.D.

Instructor in Economics

DEPARTMENT OF ENGLISH

ROBERT MALCOLM GAY, A.M., LITT.D.

Professor of English, and Director of the School of English

MYRA COFFIN HOLBROOK, A.M.

Associate Professor of English

IDA ALICE SLEEPER, A.M.

Assistant Professor of English

JANE GAY DODGE, A.M.

Assistant Professor of English

BARBARA MURRAY HOWE, A.M.

Assistant Professor of English

JANE LOUISE MESICK, PH.D., LITT.D.

Assistant Professor of English and Ethics

ALBAN BERTRAM DE MILLE, A.M.

Assistant Professor of English

ALICE LOUISE CROCKETT, A.M.

Assistant Professor of English

JUDITH MATLACK, A.M.

Assistant Professor of English

HELEN McGREGOR NOYES, A.B.

Instructor in English and Oral Expression

FELTUS WYLIE SYPHER, A.M.

Instructor in English

LYLE KENNETH BUSH, A.M.

Instructor in English and Art

ALICE MIRIAM FLOYD, A.B.

Special Instructor in English

ELSPETH O'HALLORAN, A.B.

Special Instructor in English

DORIS MARGARETT SUTHERLAND, S.B.

Special Instructor in English

JAMES RHYNE KILLIAN, JR., S.B.

Special Instructor in Magazine Journalism

ROBERT NEWTON LINSCOTT

Special Instructor in Book Publishing

HARLAND ROGERS RATCLIFFE, S.B.

Special Instructor in Journalism

DEPARTMENT OF HISTORY, GOVERNMENT, AND SOCIOLOGY

HARRY MAXWELL VARRELL, PH.D.

Professor of History and Government

GEORGE NYE STEIGER, PH.D.

Associate Professor of History

WARREN STENSON TRYON, A.M.

Assistant Professor of History

WALDO EMERSON PALMER, A.B.

Instructor in History

ROBERT CARTER RANKIN, LITT.B., PH.D.

Instructor in History

DEPARTMENT OF HOUSEHOLD ECONOMICS

ALICE FRANCES BLOOD, PH.D.

Professor of Dietetics, and Director of the School of Household Economics

ULA MAY DOW, S.B., A.M.

Professor of Household Economics, in charge of the Division of Foods

MARGIA HAUGH ABBOTT, PH.B.

Associate Professor of Clothing, in charge of the Division of Clothing

QUINDARA OLIVER DODGE, S.M.

Associate Professor of Institutional Management, and Supervisor of Vocational Practice

MARION B. GARDNER, S.B., ED.M.

Assistant Professor of Design

NELLIE MARIA HORD, S.B., A.M.

Assistant Professor of Foods

ELEANOR SOPHIA DAVIS, A.B., S.B.

Instructor in Clothing

RUTH LORING WHITE, S.B.

Special Instructor in Dietetics

S. AGNES DONHAM

Special Instructor in Family Budgets

RUTH MacGREGORY, S.B.

Instructor in Foods

SIMMONS COLLEGE

SIMMONS COLLEGE is a college for women which combines liberal education with vocational preparation. The will of its founder, John Simmons, directed that the College should give instruction in "art, science, and industry best calculated to enable the scholars to acquire an independent livelihood". In pursuance of that trust the Corporation was organized in 1899, and the College was opened for instruction in 1902. Simmons College is on the approved list of the Association of American Universities.

The College has developed courses of study for the preparation of secretaries, librarians, social workers, nurses, dietitians, managers of institutions, business accountants, laboratory assistants, educational directors in mercantile establishments, workers in editorial or publishing offices, teachers of English, of science, of home economics, and of commercial studies, and directors of physical education. Each of these courses of study provides both the technical instruction necessary for professional success and the cultural elements essential to intelligent living.

For convenience in administering the program, several technical Schools have been organized which together constitute the College. In 1933-34 the registration in these Schools was as follows: Household Economics, 225; Secretarial Studies, 388; Library Science, 220; General Science, 97; Social Work, 281; Physical Education, 11; Store Service Education, 62; Public Health Nursing, 283; English, 54; Landscape Architecture, 5; total, 1,626. Among these students were 153 graduates of other colleges. In addition to the students present during the regular session, there were 133 in the summer session of 1933, making a total of 1,759 students who registered for courses at Simmons College in 1933-34. Canal Zone, Hawaii, Bermuda, Brazil, Canada, China, England, Siam, and thirty-three of the United States were represented.

ADMISSION

The requirements for admission to the first year of any of the four-year programs or the five-year program at Simmons College are in general the subjects included in a four-year high school course of study. There are special conditions of admission for graduates of other colleges and for mature students who wish to pursue the briefer programs. Detailed information concerning admission to the College may be found on pages 30 ff.

EXPENSES

The annual tuition fee for all regular students is \$250. The charges for residence in a College house vary from \$350 to \$500. There are other expenses, including the cost of laboratory fees and deposits in connection with some courses, books and papers, and luncheons if the student lives in one of the houses of the Francis Street group. These expenses are listed on pages 79 ff.

LOCATION

The main College building is situated in Boston near the southern end of The Fenway, facing the city. Behind the building is an athletic ground with provision for various outdoor activities. The principal dormitories are located about half a mile from the College. Detailed information regarding the College buildings may be found on pages 69 ff.

PLAN OF INSTRUCTION

THE courses of study offered in Simmons College are arranged in various programs, with reference to the particular occupations for which the students are preparing. These programs are grouped in nine Schools, as follows:

	PAGE
A. SCHOOL OF HOUSEHOLD ECONOMICS	37
B. SCHOOL OF SECRETARIAL STUDIES	41
C. SCHOOL OF LIBRARY SCIENCE	45
D. SCHOOL OF GENERAL SCIENCE	53
E. SCHOOL OF SOCIAL WORK	55
F. SCHOOL OF PHYSICAL EDUCATION	57
G. PRINCE SCHOOL OF STORE SERVICE EDUCATION	58
H. SCHOOL OF NURSING	61
K. ENGLISH	65

With the technical subjects essential to each program are associated related academic subjects, in proportions which are designed to give a well-balanced training.

The plan of instruction provides complete programs of four or five years for students who have fulfilled the requirements for admission. It affords one-year or two-year technical programs for those who have had collegiate training elsewhere. More elementary programs are also offered in the School of Nursing to a limited number of properly qualified students. Under special conditions mature students may be received for instruction in subjects amounting to less than a complete program. Summer courses are offered to properly qualified candidates.

The following programs indicate the grouping of the subjects studied in the various Schools. Programs leading to a degree may not be varied except by permission of the Faculty. In cases where an unrestricted elective is indicated, it may be any subject for which the student has the prerequisites.

CONDITIONS OF ADMISSION

EVERY candidate for admission to Simmons College must make application on the form furnished by the Registrar of the College, and must meet the entrance requirements described below, including a certificate of honorable dismissal from the principal of the institution last attended, and also a satisfactory certificate of health for which the College provides a blank. The application is not registered unless it is accompanied by the required fee of ten dollars. This fee is deducted from the first tuition payment, but it is not returned if the application is withdrawn, or if the applicant is not able to meet the entrance requirements.

The number of students that can be admitted to any program is definitely limited. The names of candidates are listed in the order of their formal applications. Candidates whose applications are received before the limiting number is reached are accepted provided they satisfy all entrance requirements before July 15. After July 15 the names of candidates are placed on the register of admissions in the order of the completion of the entrance requirements without reference to the order of their applications.

I. REQUIREMENTS FOR ADMISSION TO THE FIRST-YEAR CLASS

Candidates for admission to the first-year class are required to present evidence of satisfactory preparation in certain subjects named below and defined by the College Entrance Examination Board. The College is glad to furnish information concerning any subjects which it accepts but which the Board does not describe. The evidence may be presented (A) by certificate; (B) by examination as explained on pages 32 ff.; or (C) by certificate in a part of the subjects and by examination in the remainder.

SIMMONS COLLEGE

Alternative Plan of Admission

TO PROVIDE a means by which a girl of unusual promise may enter Simmons College when her record of work in the secondary school does not conform to the requirements for admission as stated in the catalogue, the College has adopted an additional plan of admission. This alternative method of admission, to be known as Plan II, is available for students who are completing their work in the secondary school in June 1934.

The candidate for admission under Plan II is required to submit a variety of evidence, *which will be judged as a whole* in determining her admission.

1. *School Record.* The principal of the school last attended will be asked to submit a certified transcript of the applicant's record in that school. The complete record should cover at least the period from grades ten to twelve, and in cases where the candidate has attended more than one school, the College will seek transcripts of her record from each such school. The record should include: (a) the studies taken in each grade, (b) the

final marks gained in each study, (c) the candidate's rank in the graduating class, and (d) any other data which the school makes a matter of permanent record, and which will assist the College in its judgment of the applicant's fitness. Schools which use the Cumulative Record Form prepared by the American Council on Education will be asked to submit a photostatic copy of the candidate's entire record.

2. Examinations. In addition to the evidence supplied by her school record, the candidate will be asked to show through examination her aptitude for college work and her ability in written expression. She will be required to take two examinations administered by the College Entrance Examination Board: the Scholastic Aptitude Test and the Comprehensive Examination in English. The Board charges a fee of ten dollars for these examinations.

In case the applicant's decision to apply for admission to Simmons College is made too late to take the Scholastic Aptitude Test and the Comprehensive Examination in English in June, she will be required to take similar examinations at the College prior to its opening in September. A fee of ten dollars will be charged for the September examinations if both are taken, or five dollars if only one examination is taken.

3. Health. The candidate will be asked to submit evidence of physical health on a blank form to be provided by the College.

4. Recommendations. Confidential reports on the personal qualifications of the applicant will be sought from the principal of the secondary school last attended, from two teachers who have known the candidate well, and from two other responsible people not related to

her. In addition, the principal of the school will be asked to give his matured judgment of the general fitness of the applicant to pursue successfully a suitable curriculum in Simmons College.

5. Purpose in Desiring to Enter Simmons College. The applicant will be asked to state in writing her educational and vocational plans, her reasons for desiring to enter Simmons, and her choice of a school within the College.*

6. Personal Interview. In so far as it is feasible, the College will arrange for a personal interview with each applicant.

Although this alternative method of admission was established primarily to serve the needs of the girl who has been unable to plan her secondary-school course in terms of the requirements as published in the catalogue of Simmons College, the plan provides a flexibility in the relationship of the secondary school and the College which, it is hoped, will be mutually beneficial. Under Plan II, the College makes no stipulation of subjects which must be taken in the secondary school, nor does the College specify what grade of accomplishment must be achieved by the applicant. By requiring, in addition to the school record, tests of aptitude and of written expression, both of which are to a greater extent tests of power than of specific achievement, and by considering also the health of the applicant and the judgments of those who have had opportunity to study her development, the College will seek to make a wise deci-

* Simmons College provides programs of professional preparation in a setting of liberal education. The College includes the following schools: English, General Science, Household Economics, Secretarial Studies, Library Science, Social Work, Nursing, Physical Education, and Store Service Education.

sion on the applicant's admission. The College will base its decision on the evidence as a whole rather than on any specific aspect of the applicant's record.

The Registrar of Simmons College, at 300 The Fenway, Boston, Massachusetts, will be happy to answer any questions concerning admissions under Plan II, and upon request will forward the necessary blank forms for applications.

Preparation must amount to 15 units, distributed among the following subjects:

Prescribed subjects:	units
English	4 or 3 *
Foreign language	3 or 4 **
History	1
Algebra	1
Geometry	1

Elective subjects to complete 15 units:

Foreign language
History †
Mathematics
Specific sciences
Technical or general subjects † (not more than 4 units)

A *unit* represents a year's study in any subject in a secondary school constituting approximately a quarter of a full year's work. Not less than one-half a unit earned in one year is accepted in any subject.

Subjects not included in the examination lists of Simmons College may be offered only by certificate.

No deficiency in the number of entrance units is permitted; but for the present a candidate who presents a total of 15 units is admitted with two years of only one foreign language. Such a student must later pass an examination or take courses in language without credit.

A student who has offered two or more units in a subject which she continues in College is expected to enter an advanced course in that subject.

(A) ADMISSION BY CERTIFICATE

The College receives as evidence of fitness for admission a certificate from the headmaster or principal of an approved

* If offered by examination, 3 units only are allowed.

** Two units of each of two foreign languages may be offered in place of 3 units of one foreign language.

† General History, World History, and half units of History, and General Science may be offered only as general subjects.

school in which the candidate has spent at least the fourth year of her preparation. The certificate must be submitted on the form furnished by the College.

The work should be distributed over the last four years of secondary school. The work of the last year in a junior high school may be accepted in place of that of the first year of a four-year high school course.

The certificate privilege is granted to all schools on approved regional lists. Other schools may obtain the privilege only by vote of the Faculty of the College. Application for the certificate privilege must be made on the form furnished by the College.

The certificate must show the entire record of the candidate and give evidence that she has completed, to the extent and in the manner described in the Bulletin of the College Entrance Examination Board, the subjects in which she is recommended for admission without examination. The certificate may be supplemented by examinations, if necessary, to meet the entrance requirements of the College in full.

(B) ADMISSION BY EXAMINATION

The candidate must pass satisfactory examinations in English composition and literature (English 1-2, 3 units); in one foreign language (3 units), or in two foreign languages (2 units each); in algebra (Mathematics A1, 1 unit); in plane geometry (Mathematics C, 1 unit); in one branch of history* (1 unit); and in enough subjects from the list given below to make a total of 15 units.

The requirements in the various subjects are in general identical with or equivalent to those of the College Entrance Examination Board, and the Board examinations are accepted for admission to the College.

* *Ancient History is counted as one branch of history.*

The following table outlines the subjects of admission, with the Board examinations which represent them:

Subject	Units	COLLEGE ENTRANCE EXAMINATION BOARD EXAMINATIONS	
		Ordinary	Comprehensive
English	3	English 1-2	English Cp
Mathematics:			
Algebra	1	Mathematics A 1	
	1	Mathematics A 2

Mechanical Drawing	1	Mechanical Drawing	

* No notebook or laboratory certificate is required.

EXAMINATIONS HELD BY THE COLLEGE ENTRANCE EXAMINATION BOARD

The examinations of the College Entrance Examination Board are held in Boston and at many other places throughout the country beginning the third Monday in June.

All applications for the examinations of the Board must be addressed to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y., and must be made upon a blank form to be obtained from the Secretary of the Board.

A list of the places at which examinations are to be held by the Board in June is published about March 1. Requests that the examinations be held at particular points, to receive proper consideration, should be transmitted to the Secretary of the Board not later than February.

REGENTS EXAMINATIONS

The College allows credit for Regents examinations passed with a grade of seventy-five per cent or over in the standard college preparatory subjects.

EXAMINATIONS HELD AT SIMMONS COLLEGE

Entrance examinations in subjects for which application is made are held at the College in September. Applicants who plan to take examinations should notify the Recorder not later than August 1.

Information regarding examinations in subjects in which the College Entrance Examination Board does not examine may be obtained from the Recorder.

(C) ADMISSION BY CERTIFICATE AND EXAMINATION

If a candidate's certificate does not cover enough subjects to meet the requirements for admission, she may offer subjects by examination to complete the requirements.

II. SPECIAL CONDITIONS OF ADMISSION

The Committee on Admission and Programs may admit candidates of sufficient maturity who are unable to fulfill the regular requirements, if their preparation includes a high school course or its equivalent, and if they show fitness for the courses for which they apply. Such students are received only on probation, and are granted classification only by vote of the Faculty, after the quality of their work has been sufficiently tested.

Part-time students who are unable to meet the regular entrance requirements may be admitted if their preparation includes a full high school course or its equivalent and if there is room in the classes after all regular students have been admitted. Part-time students may register for not more than eight hours, and for these they must obtain the consent of the chairman of the department in which they wish to register, but they may not count these courses for a degree.

III. ADMISSION FROM COLLEGES AND NORMAL SCHOOLS

Applicants who have completed satisfactorily one year or more in other approved colleges or are graduates of approved normal schools are admitted to advanced standing without examination as candidates for the bachelor's degree. Applicants who have completed only one year in approved normal schools are required to present evidence of having satisfactorily completed preparation which is equivalent to a four-year high school course and which includes the requirements for admission to Simmons College in English, foreign language, mathematics, and history, and are not granted advanced standing.

IV. ADMISSION FROM JUNIOR COLLEGES

Students who, upon their admission to a junior college approved by Simmons College, could have satisfied the entrance requirements of this College will receive provisional credit

for those academic courses pursued in the junior college which correspond substantially to courses required in the program which they plan to enter, the credit to become final when they shall have shown their ability to carry the work at Simmons College.

A. SCHOOL OF HOUSEHOLD ECONOMICS

THE courses offered by the School of Household Economics are designed for women who wish to teach; to administer an institution or household; to undertake such forms of social service as work in clinics with children; to lecture or to write on subjects related to household economics; or to study special problems in the field of household economics. Teaching positions in this field are varied, including instruction in foods, clothing, and home making, in public, private, and vocational schools, normal schools and colleges. Certain types of community work conducted by family welfare and health organizations and by the Extension Department of the Bureau of Agriculture are open to household economics graduates. Administrative positions vary in responsibility, and include the management of school lunchrooms and of welfare lunchrooms of business corporations, and the administration of such institutions as college dormitories, orphan asylums, and hospitals. The more responsible positions are open only to older women.

The students in regular programs are required to take certain academic and scientific subjects as well as technical subjects, since a broad training is essential to success in the field of household economics. An opportunity for vocational practice in connection with certain of the College courses is provided in the College dormitories—one house containing rooms for twelve students is used as a home management practice house—in the lunchroom, and at the Women's Educational and Industrial Union. Students who are preparing to administer school lunchrooms, to be managers of institutions, or to engage in other business enterprises are allowed to supplement their College training by observation and practice in the shops and workrooms of the Union. Students who intend to teach have opportunities for observation and prac-

tice in the classes of the public schools and of the settlement houses. Students who wish to apply household economics in social service have an opportunity for field work under various Boston organizations.

THE FOUR-YEAR PROGRAM

The four-year program leads to the degree of Bachelor of Science. While each student is required to take certain academic, scientific, and technical subjects which are considered essential to success in any branch of household economics, still a wide range of electives is permitted through which a student may specialize in the subjects of interest to her. These electives are taken chiefly in the senior year, but for students specializing in biology, chemistry, or clothing, an earlier choice is necessary in order to meet the prerequisites for advanced courses. Details as to the time when such decisions must be made are indicated in the following outline of courses.

A I. FOUR-YEAR PROGRAM

For a detailed explanation of the courses mentioned in the following programs, see pages 87 ff.

FIRST YEAR

Chemistry 1
Design 1, Biology 1
English 1
Physics 1
Biology 100
Physical Training A

SECOND YEAR

<i>Group I (Foods)</i>	<i>Group II (Clothing)</i>
Biology 2, 3	Biology 2, 3
Chemistry 3	Clothing 1, 5
Foods 1	Design 2
Elective (academic, 4 yr. hrs.)	Elective (academic, 4 yr. hrs.)

THIRD YEAR

<i>Group I (Foods)*</i>	<i>Group II (Clothing)*</i>
Economics 1	Clothing 3, 4
Dietetics 1, Foods 3	Economics 1
or Dietetics 1, Household Management 2	Foods 1
Biology 4	Elective (academic, 4 yr. hrs.)
or Chemistry 6 or 7	
or Clothing 1, 5	
Elective (academic, 4 yr. hrs.)	

FOURTH YEAR

Academic electives to equal eight year hours, and technical electives to equal eight year hours.

Electives

Accounts 5
Clothing 2
Clothing 6
Design 3
Dietetics 2
Dietetics 3 ** and Social Economy 2 **
Education 1 and Education 3
Household Management 3 ** and Dietetics 3 ** or Education 6 **
Institutional Management 1

Any academic or scientific subject for which the student has the prerequisites.

PROGRAMS FOR COLLEGE GRADUATES

The degree of Bachelor of Science is granted to graduates of other colleges who have satisfactorily completed a program approved by the Faculty of Simmons College.

Two years are usually required, but in some cases it is possible to arrange a program which permits graduation at the end of one year. This can be done only when the previous college training of the student has included so many of the courses in science or technical subjects required in the A I program, that the remaining technical requirements of that program may be practically completed in a single year.

The Director of the School is glad to correspond with stu-

* Household Management 1 will be included in this program in 1935-36.

** One-half year.

dents who contemplate entering Simmons College with advanced standing, and to advise them concerning preliminary courses which will articulate with the requirements here for the degree of Bachelor of Science. This plan may be of advantage in shortening the program or in making it possible to take advanced electives. At least one year at the College is required.

Normal school graduates are admitted to similar programs, but a normal school graduate is seldom able to complete the requirements for the degree in less than three years.

The professional opportunities open to students who complete these programs are similar to those described on page 37.

B. SCHOOL OF SECRETARIAL STUDIES

THE programs in the School of Secretarial Studies combine academic and cultural subjects, such as English, foreign languages, science, history, economics, and psychology, with such technical and vocational subjects as shorthand, type-writing, accounts, commercial law, commerce, business organization, and business practice. Experience has shown that professional success cannot be secured in secretarial work without a well-rounded academic education; and therefore it is insisted in all the programs of the School that such an education must precede or accompany the purely technical instruction. In the academic courses an attempt is made to develop the value of the subjects from a vocational standpoint as well as to emphasize their cultural value.

Graduates of the School of Secretarial Studies are now filling positions of many kinds. While the fundamental idea of the School has been to prepare women especially for the duties of private secretaries, medical secretaries, college registrars, office assistants, or teachers of commercial subjects, it has been found from experience that the programs also furnish excellent preparation for women who prefer other types of business positions. For example, some of the graduates of the School are now directors of personnel in business offices, superintendents in manufacturing plants, supervisors of correspondence, advertising writers, and filing experts.

A program extending over four years (B I) has been arranged for applicants who can meet the entrance requirements of the College, and a one-year program (B II) is offered for graduates of other approved colleges. These programs are described in detail later.

In all the programs a limited amount of practice under actual business conditions has been arranged at the Women's Educational and Industrial Union and with a number of prominent business firms in Boston, where members of the senior class work for one day each week during a portion of the year.

THE FOUR-YEAR PROGRAM

For the completion of the regular program for undergraduates leading to the degree of Bachelor of Science, four years are required; but a student whose courses of study and whose grades are satisfactory to the Faculty, and who finds it necessary to withdraw at the end of the second or third year, may be permitted, during that year, to take in addition to the regular work in English, such special courses in shorthand, typewriting, and accounts as will give her sufficient facility in these subjects to meet the requirements of the ordinary business position.

A student who desires to prepare herself for a position as teacher, accountant or income tax specialist, medical secretary or record secretary in a hospital, secretary in a law office or shorthand reporter elects from the courses given below.

Teacher: *Psychology 2, 3 and 6, Education 1, 4, and 5.*

Accountant or income tax specialist: *Economics 4, Accounts 2, 3, 4.*

Medical secretary or record secretary: *Chemistry 2, Biology 1, Shorthand-Typewriting 8.*

Secretary in law office or shorthand reporter: *Shorthand-Typewriting 9.*

B I. FOUR-YEAR PROGRAM

For a detailed explanation of the courses mentioned in the following programs, see pages 87 ff.

FIRST YEAR	SECOND YEAR	THIRD YEAR
English 1	Economics 1	Accounts 1
History 1	English 2	Business Organization 1
Language	Shorthand-Typewriting 1	English 23
Physics 1 *	Electives (academic, or Chemistry 2 4 yr. hrs.) **	Shorthand-Typewriting 2 Electives (academic, 4 yr. hrs.)
Biology 100		
Penmanship A		
Physical Training A		

* Physics is required unless it has been offered for entrance.

** A student who begins a language in her first year at Simmons College continues the same language during her second year.

FOURTH YEAR	Technical Electives
Commercial Law 1	Accounts 2, 3, 4
Filing 1 *	Advertising 1
Office Machine Practice 1 *	Business Problems 1
Secretarial Training 3 or 4 **	Commerce 1
Electives (technical, 2 yr. hrs.)	Economics 4
Electives (academic, 4 yr. hrs.)	Education 4, 5
Electives (free, 2 yr. hrs.)	Shorthand-Typewriting 8, 9
Secretarial Lecture	

PROGRAM FOR COLLEGE GRADUATES

A program of secretarial subjects has been arranged for graduates of approved colleges. This program is also open to those who have had at least three years of collegiate work, provided certain specified academic subjects are included. The purpose of the program is to provide instruction and practice in secretarial subjects, including shorthand, typewriting, and accounts, for students who have already completed the equivalent of the academic subjects prescribed in the four-year program. This special arrangement of courses insures in purely technical subjects a knowledge of principles approximately equivalent to that afforded by the longer program. Since the number of students who can be admitted to this program is limited, application should be made as early as possible.

Candidates who complete the program satisfactorily are eligible for the degree of Bachelor of Science on the Commencement Day at the end of their year at the College.

B II. ONE-YEAR PROGRAM IN GENERAL SECRETARIAL SUBJECTS

Accounts 1	Electives †
Business Organization 1	Accounts 2, 3, 4
Commercial Law 2 *	Advertising 1
Office Machine Practice 1 *	Business Problems 1
Shorthand-Typewriting 5	Commerce 1
Secretarial Lecture	Economics 4, 7
	Education 1, 4, 5
	English 23
	Filing 1 *

* One half year.

** If Secretarial Training 4 is elected, a student must take Accounts 4 and either Accounts 2 or 3 in order to complete the requirements for the degree.

† If the hour plan permits, any of these electives may be substituted for required subjects already taken.

SUMMER COURSES FOR TEACHERS OF
COMMERCIAL SUBJECTS

Summer courses in secretarial studies are offered to properly qualified applicants. The program is planned especially for teachers of commercial subjects, and includes instruction in virtually all the commercial studies, as well as in methods of teaching such subjects.

A bulletin describing the summer courses may be obtained from the Registrar of Simmons College.

C. SCHOOL OF LIBRARY SCIENCE

GENERAL PREREQUISITES

LIBRARY work deals with books on all subjects, and people of all ages and degrees of education. A librarian is expected to have either broad acquaintance with the literature of many branches of knowledge, or special familiarity with one branch; hence, a liberal education is an essential foundation for the study of library science. She may be best suited for work with young people or those of mature mind.

A woman who thinks of becoming a librarian should consider what are the desirable prerequisites in intellect, physical strength, disposition, tastes, habits, and character. Among the traits desirable are courtesy, adaptability, readiness to accept responsibility, initiative, mental alertness, accuracy, and manual dexterity. Because library work demands more than average intellectual ability those who have always been among the outstanding students in their classes are advised to consider this career.

Admission to the School is limited to women not over thirty-five years of age.

Good health is important. Library work is physically exacting, and only to a very limited extent can opportunities be found for those not physically fit. No one is refused consideration, but *any physical handicap, including deformity, deafness, previous nervous trouble, or a recent operation, must be mentioned in applications for admission, and be noted on the health certificate. Failure to heed this requirement will justify the College in recalling, at its discretion, its permission to enter.* Applicants are urged to bring this paragraph to the attention of the doctors who fill out their health certificates, who will not otherwise know of our requirement.

SPECIAL EQUIPMENT

A properly equipped librarian needs to understand the value of libraries and the part they play in our modern life. She has

to judge books in terms of their interest to the groups who use them. She must know authors and publishers, and important points about printing, editions and binding; that is, the bibliographical side of books.

There is a body of good usage in organizing books in libraries for convenient use through classification, and in describing them in catalogs, and this usage has been reduced to principles and methods which can be studied.

The programs in Library Science offered by the Simmons College School of Library Science are designed to give the special equipment needed for successful careers as librarians.

INSTRUCTION AND FIELD WORK

The methods of instruction vary with the subject, but the purpose throughout is that, in addition to the usual lectures, demonstrations, recitations, and reading, there shall be observation, practical experimentation, and reports, by the students.

Visits to libraries, binderies, bookstores, publishing houses, museums, exhibits, and professional meetings afford the field for observation. Boston offers unusual opportunities for such observation.

Practical experimentation of two types is needed: first, the working out of problems, real, but prepared with careful choice of conditions to illustrate certain points in library science; second, the kind which the student meets when thrown into practical competition in a library, to do the day's work, whatever it may be, with experienced workers as pacemakers. The first type is sufficiently cared for by the laboratory work accompanying the various courses, and by practice in the College library. For the other form an opportunity is afforded by field work in libraries and book stores. Each student in the four-year program has four weeks of field work. Two consecutive weeks are given in the summer vacation preceding her senior year, and two more weeks are spent in a library of recognized standing during her senior

year. In these two weeks all her College work is suspended. Students carrying the one-year programs likewise have this fortnight of experience during the college year. They are advised to spend also at least a fortnight of observation and practice in a *public* library before entering the course. The School is indebted to the libraries which have generously consented to receive student practice workers, and have thus made it possible to include this privilege in the curriculum.

PROGRAMS PREPARING FOR LIBRARIANSHIP

The School of Library Science offers four-year programs and one-year programs (C I, C II, C IV), leading to the degree of Bachelor of Science.

C I. FOUR-YEAR PROGRAM

This program is open to students who can fulfill the entrance requirements, which are described in detail on pages 30 ff. It is very desirable, although not at present required, that Latin be one of the languages offered for entrance, as the knowledge of it is important in the study of bibliography and library science, and it is not taught in Simmons College. Instruction is given in French and German, the most necessary modern languages, and a knowledge of both is required before the senior year. The minimum requirement in French and in German is the equivalent of a college year's study of each language, although at least two years of each are strongly advised. Unless they have offered both French and German for entrance, students carry in their first year a beginning course in that one of those two languages which they lack. Not less than four hours of foreign language are required in each of the first three college years, and the electives offer an opportunity for additional courses. Those who look forward to work in college libraries, or to reference and research or to cataloguing in large public libraries, should be able to read both French and German freely, and any additional language is an asset. In choosing electives it would be wise to bear this in mind.

The first three years are devoted to academic studies, except that in the third year preliminary courses in library methods and in typewriting are given as preparation for summer field work. The fourth year is given exclusively to library science.

Students who transfer from other colleges with one, two, or three years of general credit are also enrolled in the C I program. Such candidates should consult the Registrar of Simmons College for exact information as to the rules governing credit and prerequisites, including typewriting. As the C I quota is usually filled by those entering as Freshmen, very few transfer students can be admitted. Transfer can rarely be arranged after the second year since differentiation from academic college programs begins during the third year.

C I. FOUR-YEAR PROGRAM *

For a detailed explanation of the courses mentioned in the following programs see pages 87 ff.

FIRST YEAR	SECOND YEAR	THIRD YEAR
English 1	English 3	Economics 1
History 1	History 2	Language (4 yr. hrs.)
Language **	Language	Library Science 1
Physics 1 † or Chemistry 2	Elective (academic, 4 yr. hrs.)‡	Typewriting 6 ¶ Electives (academic, 6 yr. hrs.)‡
Biology 100		
Physical Training A		
	FOURTH YEAR *	
Administration 1		Field Work
Bibliography 2		History of the Book 1
Book Selection 1		Reference 1
Cataloguing 1		Elective
Classification 1		School Libraries 1 and Administration 2 **

* Students who specialize in Library Work with Boys and Girls substitute the C IV program from December to June in the fourth year.

** A beginning course in French or German unless both have been offered for entrance.

† Physics is required unless it has been offered for entrance.

‡ Any subject for which the student has the prerequisites.

¶ If typewriting is offered for entrance the student may be excused from the subject without credit.

**C II. ONE-YEAR PROGRAM
IN LIBRARY SCIENCE FOR COLLEGE GRADUATES**

This program is open to graduates of approved colleges, without entrance examinations. Those planning to enter are advised to consult the Registrar of Simmons College regarding prerequisites. The minimum requirement in French and German is a year of study of each language, but at least two years of each, and some knowledge of Latin, are highly desirable.

For reference and research, and for cataloguing, in college and university and large public libraries, the ability to read French and German easily is greatly needed and every language is an asset. College graduates who have majored in language therefore have an advantage over those with the minimum attainment. Special knowledge in any field is helpful.

C II. ONE-YEAR GENERAL PROGRAM *

Administration 1	Field Work
Bibliography 2	History of the Book 1
Book Selection 1	Reference 1
Cataloguing 1	Typewriting 6 †
Classification 1	<i>Elective</i>
	School Libraries 1 and
	Administration 2 **

C IV. PROGRAM IN LIBRARY WORK WITH BOYS AND GIRLS

This program is offered for those especially interested in the contribution which the library makes to its youthful readers. This field has peculiar problems for which specialized training is needed and is being more and more demanded.

From September to December all programs lay a general foundation needed for all types of library work. At a stated time before Thanksgiving, Miss Brotherton confers with all

* Students who specialize in *Library Work with Boys and Girls* substitute the C IV program from December to June.

** Students who elect School Libraries 1 substitute Administration 2 for Administration 1 from December to June.

† If typewriting is offered for entrance the student may be excused from the subject without credit.

students interested in library work with boys and girls to consider with them whether their success in this field is probable. The enrollment in C IV may not exceed twenty-five. Candidates are selected by Miss Brotherton following the conference, but those who know in advance that they desire this specialization would be wise to indicate it in their applications for admission in September, although this does not establish a priority claim.

C IV. ONE-YEAR PROGRAM
IN LIBRARY WORK WITH BOYS AND GIRLS *

Administration 1	Field Work
Book Selection 1	Reference 1
Cataloguing 1	<i>Elective</i>
Children's Work 1	School Libraries 1 and
Classification 1	Administration 2 **

SCHOOL LIBRARIES

All the programs offered permit the substitution of *School Libraries 1* for other courses from December to June, if desired.

The course is especially recommended to college graduates who have had courses in education or successful experience in teaching, but it is open to a limited number of seniors, particularly those who have elected courses in psychology and education in their second and third years.

It should be understood that this specialization prepares for elementary and secondary school libraries. Those planning to enter college work should not elect School Libraries.

Since the class is limited to twenty-five, it is well to indicate any special interest when applying for entrance, even though that does not establish a priority right to admission to this elective.

TYPEWRITING

The typewriter is so commonly used for all library records that it is desirable that library school students should know

* From December to June this program may be substituted for the fourth year of the C I program or for the C II program.

** Students who elect School Libraries 1 substitute Administration 2 for Administration 1 from December to June.

how to use it, even though they may not attain speed or great skill. A brief course, *Typewriting 6*, is required of all students who have not had instruction or experience in typing. If the instructor finds, after conference, that any student is sufficiently skilled to do the necessary work in essentially non-clerical positions in a library, such a student is excused from the course, without credit. College graduates who can do so are advised to offer Typewriting on entrance.

Typewriting cannot be included in the fourth year of the C I program, and students who wish to transfer to that year from other colleges or other schools of Simmons College *must* have acquired some facility in typewriting in advance.

SPECIAL STUDENTS

A few women of sufficient maturity and previous experience in library work who do not meet the full requirements for entrance are admitted to the technical courses of the C I program *if there is room in the class* and if they can meet the conditions governing partial students. They are not considered candidates for the degree, but formal certificates are awarded to those who complete the entire technical program satisfactorily. Since those who meet the full requirements are given precedence, it is usually necessary to put other applicants on a waiting list until September.

EXPENSES

The tuition is \$250, and the cost of residence in the College houses varies from \$350 to \$500 a year. In addition, students in the School of Library Science should allow in their budgets in the senior or graduate year about thirty-five dollars for textbooks, supplies, and desirable material on library science as a nucleus of their professional libraries. An additional ten dollars is needed that year to cover membership in the American Library Association, subscription to the *Publishers Weekly*, expenses for visits to libraries, and other items

which can be more easily arranged for through the School than by the students.

The budget must provide also for two weeks' maintenance during the fortnight of field work, for the value of this experience depends upon the library in which it is obtained, and the assignment should be made to suit the student's professional needs, not with reference to the distance from Boston.

THE SUMMER LIBRARY CLASSES

In the summer of 1934 the following courses are offered: Bibliography and Order; The Book Collection; Cataloguing; and High School Library Service.

The summer session begins on July 2, and continues for six weeks. Application should be made as early as possible since the enrollment in some of the courses offered is limited.

A bulletin describing the summer courses may be obtained from the Registrar of Simmons College.

GENERAL INFORMATION

No evening, Saturday, or correspondence courses are given.

The degree of Bachelor of Science is granted only to those who have spent their final year at the College, pursuing the technical program, and who have completed all other requirements.

For graduates of academic colleges the summer library courses give credit toward the degree of Associate in Science. The degree will be granted on the completion, with satisfactory grades, of thirty-two points, including at least six points in each of the following subjects: Book Selection, Cataloguing, and Reference, and at least three points in each of the following: Classification, and Library Administration. The other eight points may be chosen from other library science courses offered in various summers, such as Library Work with Children, School Libraries, Bibliography, Government Publications, History of Libraries.

D. SCHOOL OF GENERAL SCIENCE

THE FOUR-YEAR PROGRAM

THE program in General Science leading to the degree of Bachelor of Science is designed for students who wish to become teachers of biology, chemistry, physics, or mathematics; assistants in chemistry or biology to persons engaged in medical or other scientific research; or to fill certain positions which involve the application of these sciences in the arts. The prescribed studies of the first two years are the same for all students, but in the third and fourth years major emphasis may be placed upon biology, chemistry, physics or mathematics. At least five-eighths of the work of these final two years must be in science or mathematics.

D I. FOUR-YEAR PROGRAM

For a detailed explanation of the courses mentioned in the following programs, see pages 87 ff.

FIRST YEAR

Chemistry 1	
English 1	
Mathematics 1	
Physics 1	
Biology 100	
Physical Training A	

SECOND YEAR

Biology 14, 15	
Chemistry 4	
Physics 2	
Elective (academic, 4 yr. hrs.)	

THIRD YEAR *

Twelve year hours in biology, chemistry, physics, or mathematics.
Four year hours elective.

FOURTH YEAR *

Eight year hours in biology, chemistry, physics, or mathematics.
Eight year hours elective.

* In the third and fourth years the program should include the following courses:

- For a student specializing in Biology: *Biology 4, 7, 8, 9, 10, 13*; and *Chemistry 5*.
- For a student specializing in Chemistry: *Chemistry 5, 9, 10, 11, 12, 13*.
- For a student specializing in Physics: *Physics 3, 6, 7*.
- For a student specializing in Mathematics: *Mathematics 3, 4*.

TWO-YEAR PRE-MEDICAL PROGRAM *

The following program is arranged to meet the admission requirements of medical schools, of the Class A rating, adopted by the American Medical Association.

D III. TWO-YEAR PROGRAM

FIRST YEAR	SECOND YEAR
Biology 14, 15	Biology 4
Chemistry 1	Chemistry 3
English 1	Physics 1
Language	Elective (academic,
Biology 100	4 yr. hrs.)
Physical Training A	

ONE-YEAR PROGRAM IN PUBLIC HEALTH AND LABORATORY TRAINING FOR COLLEGE GRADUATES

D IV. ONE-YEAR PROGRAM FOR COLLEGE GRADUATES

Simmons College, by affiliation with the several laboratories of the State Department of Health, the Boston Dispensary and the Faulkner Hospital, offers an unusual opportunity to college graduates in practical training for laboratory positions that entail executive responsibilities. A one-year program is open to a limited number of graduates of approved colleges who have taken at least elementary courses in biology, bacteriology, and chemistry.

The program offers two options; one emphasizing public health laboratory, the other hospital laboratory, technique and administration. In the first option four weeks are spent in the State Wassermann Laboratory, eight weeks at the State Bacteriological Laboratory, eight weeks at the State Vaccine and Antitoxin Laboratory, and twelve weeks at the Boston Dispensary Laboratory. In the hospital course the work at the Bacteriological Laboratory is shortened, the work at the Boston Dispensary Laboratory is omitted, and more time is spent at the Faulkner Hospital. One full course at the College must be taken in addition to the work in the outside laboratories. A certificate is granted for the satisfactory completion of this program.

* A student who plans to enter a medical school should obtain from the particular school which she prepares to enter a statement of the admission requirements for that school, since there is some variation in the requirements at different schools.

E. SCHOOL OF SOCIAL WORK

THE School of Social Work prepares students for professional service in social case work and group work as carried on in public and private agencies. The work of the School is given in six fields: children's work, community organization, family welfare, medical social work, psychiatric social work, and social studies. The program is planned to give training in fundamental techniques and in the adaptation to the social work field of the science and experiences of certain other fields, such as medicine, law, psychiatry, and economics. Practical experience under the supervision of the School is arranged for all students.

THE FOUR-YEAR PROGRAM

The four-year program for undergraduates leads to the degree of Bachelor of Science. The instruction of the first three years is given at the College building, 300 The Fenway, but that of the fourth year is given at 18 Somerset Street.

E I. FOUR-YEAR PROGRAM

For a detailed explanation of the courses mentioned in the following programs, see pages 87 ff., and the Bulletin of the School of Social Work.

FIRST YEAR	SECOND YEAR	THIRD YEAR
Biology 18	Economics 1	Economics 4
English 1	English 2	Economics 5
History 1	History 5	Social Economy 1
Language	Sociology 1	Electives (academic,
Biology 100	Electives (academic,	8 yr. hrs.)
Physical Training A	4 yr. hrs.)	

FOURTH YEAR

The Theory and Practice of Social Work

a. Class Instruction. In consultation with the Director, every student elects professional courses. Each class meets twice a week for a sixty-minute period.

b. Field Work. A minimum of 450 hours of practice work must be completed during the year. Students work in social agencies in and near Boston, under the supervision of the School staff.

E II. ONE-YEAR AND TWO-YEAR PROGRAMS FOR COLLEGE GRADUATES

Graduates of accredited colleges may become candidates for the degree of Bachelor of Science in one year. If their preparation has not included economics they are required to make up this deficiency.

Candidates for the master's degree must do two years of professional work. In both class and field work they must attain grades of A or B. A satisfactory thesis is required. They must have fulfilled the minimum requirements necessary for the degree of Bachelor of Science in the School of Social Work.

E III. TWO-YEAR PROGRAM

A two-year program leading to a certificate is offered. Candidates must have completed two years of college work, and in lieu of further academic preparation, several years of experience in teaching, nursing, or other fields related to social work. In addition to the required professional courses four hundred and fifty hours of supervised field work are required in the first year, and five hundred hours in the second year. Each student is further required to do one month of supervised field work between the first and second years of the program.

MEN AND SPECIAL STUDENTS

Men as well as women are admitted to the professional courses of the School of Social Work.

A limited number of persons in the employ of social agencies may be admitted to such courses as they are qualified to pursue with profit.

BULLETIN OF THE SCHOOL OF SOCIAL WORK

A special bulletin describing in detail the requirements and programs of the School may be obtained from the Registrar of Simmons College or from the Director of the School.

F. SCHOOL OF PHYSICAL EDUCATION

BY AN arrangement with the Bouvé-Boston School of Physical Education, students of that school who have satisfied the entrance requirements of the College and have completed satisfactorily the first two years of a program approved by the Faculty of the College, may register during their third and fourth years. They will be qualified for the degree upon the completion of sixteen year hours in the following subjects during those years, in addition to the courses required by the Bouvé-Boston School:

English	Art
History	Social Economy
Education	Ethics
Educational Psychology	Philosophy

G. PRINCE SCHOOL OF STORE SERVICE EDUCATION

THE Prince School of Store Service Education offers a year of training to prepare students to become:

A. Personnel directors in retail stores.

B. Educational directors.

Stated broadly, the work of an educational director is concerned with the development of the powers and resources of the personnel in order to:

(1) Render more efficient service to the public.

(2) Aid the management in attaining greater economy of operation (or in reducing the cost of doing business) by increasing and improving individual production.

(3) Develop the capabilities of individuals that they may become more contented in their present work and better fitted for promotion in the organization, thereby improving store loyalty and coöperation.

Some of the specific phases of store educational work are:

(1) Instruction of all new employees in the duties of their respective positions.

(2) Continued training of various store groups for improved performance. Such training may include groups in both selling and non-selling departments: floor managers, assistant buyers, sales persons, juniors, elevator operators, delivery drivers, etc.

(3) Courses with buyers, floor managers and other department heads in the principles of leadership and technique of personnel management.

(4) Training for promotion for both non-executive and executive positions.

(5) Organizing the training program to coördinate merchandise information, sales promotion and fashion promotion.

C. Employment managers and assistants.

Employment is another department of personnel that is entered by a number of the graduates of the school.

D. Teachers of retail selling and related subjects in public high schools, continuation, evening, and part-time schools.**(1) In high schools.**

In many cities courses in high schools may be elected by juniors and seniors who wish to prepare themselves for store work after graduation. These courses are carried on in coöperation with the stores and in most states a professionally trained teacher is required.

(2) In continuation, evening, and part-time schools.

Besides the preparatory courses in high schools, many public schools offer training to those already employed by the stores. Day classes are arranged for younger workers and evening classes for older ones. Extension courses in retail selling in the evening schools are arranged for older employees and for the most part carried on as short unit courses. These courses also need especially trained teachers.

E. Buyers.

An increasing number of graduates of the school become buyers. As preparation for buying the school includes in its program, among other subjects necessary for the buyer, order and invoice procedure, mark-up and mark-down, operating statements, stock control, merchandise, fashion, and personnel duties.

F. Store executives in other capacities.

Sales promotion and advertising, fashion coördination, and research are other lines of work followed by graduates of the school. There are a few who are field agents in smaller stores or in chain organizations. Manufacturers who render services to department stores, employ traveling service representatives. A few graduates have established and are managing businesses of their own.

ADMISSION AND DEGREES

Students are admitted on the basis of individual fitness. Preference is given to applicants who are graduates of colleges or four-year normal schools, and who have had teaching or business experience. A student presenting from another college credits which entitle her to full senior rank shall be eligible to receive the degree of Bachelor of Science upon completion of the one-year course at the Prince School. However, the presentation of such credits does not assure admission. The enrollment is limited to applicants whose years, education, and experience have developed that maturity necessary for the assuming of responsibilities that pertain to executive positions.

Prospective students should have proficiency in the use of oral and written English. Facility in organizing the materials of research and in writing reports in correct expository English is of the first importance. Other subjects recommended for undergraduate study are psychology, economics of merchandising, education, textiles, and color, line and design.

The degree of Master of Science is granted to graduates of approved colleges who maintain a grade of A or B in each course and who, in addition to the required program, prepare a thesis.

At least one month of selling experience in a department store is a prerequisite to entrance. This is a minimum; a longer period of store work is of great value and is urged. A certified statement regarding this preliminary work must be mailed to the school office when the requirement has been fulfilled. A blank form is furnished by the school.

Students are admitted for the full course only, which covers an academic year beginning in September and ending in June. No entrance examinations are given. No correspondence, evening, summer, or special courses are offered.

Requests for information or for catalogues of the school should be addressed to the Director, Prince School of Store Service Education, 19 Allston Street, Beacon Hill, Boston.

H. SCHOOL OF NURSING

THE School of Nursing, until recently called the School of Public Health Nursing, offers a five-year program (H I) leading to the degree of Bachelor of Science and a diploma in nursing, special programs in Public Health Nursing (H II and H VI) and in Head Nursing (H III) to qualified registered nurses, and a half-year program (H V) for young women who are registered in certain schools of nursing requiring a special training in the sciences.

H I. THE FIVE-YEAR PROGRAM

The five-year program combines the advantages of a liberal college education and professional preparation for nursing. Most of the first half of the program is spent in securing a foundation in the social, biological, and physical sciences, although some time is given to lectures and observations on nursing practice. During this time the students enjoy the usual social and cultural life of the College, and at the same time acquire a definite idea of the professional aspects of their work. The second half of the program is spent largely in various hospitals selected by the College for the special opportunities offered in the technical preparation required for becoming registered nurses. The nursing schools which have offered this clinical instruction and experience in the past are those connected with the Children's, the Massachusetts General, and the Peter Bent Brigham Hospitals.

This program leads to the degree of Bachelor of Science and the diploma in nursing. For admission to it students must meet the requirements for admission to Simmons College. A personal interview with the Director is desirable before a candidate is accepted. A bulletin containing a more detailed description of the program may be obtained from the Registrar of Simmons College.

THE ONE-YEAR PROGRAM IN GENERAL PUBLIC HEALTH NURSING

This program is open to graduates of the Simmons College School of Nursing, and also to other registered nurses who are graduates of schools of nursing which meet the accepted standards, or pupil nurses from approved schools who have completed at least two years of training, including obstetrics. For admission to the program students must also meet the requirements for entrance to Simmons College.

Graduate nurses who satisfactorily complete the program receive certificates, and those who already hold college degrees receive the degree of Bachelor of Science. Pupil nurses who satisfactorily complete the program receive certificates after they have graduated from their schools of nursing and have completed their state registration.

The work of the program includes both systematic instruction and supervised field work. The class work is given from January to June; the first thirteen weeks of the college year and the month of June following examinations are devoted largely to field work. The practical work is equivalent to the Four Months Program in Field Work (H VI. See page 63). Students who have had satisfactory experience in well-developed public health nursing organizations may be admitted in January, and in exceptional instances they may be credited with one month of the required field work.

H II. PROGRAM IN GENERAL PUBLIC HEALTH NURSING

Biology 12	Public Health Nursing 1
Dietetics 5	Public Health Nursing 2
Education 8	Public Health Nursing 4
Rural Problems *	Public Health Nursing Field Work
Social Economy 2	Sociology 2 or Psychology 4

THE ONE YEAR PROGRAM IN HEAD NURSING

The admission requirements for this program are the same as those for the H II program. Preference is given to those

* Given at 18 Somerset Street. Described in the special bulletin of the School of Social Work.

candidates who have had six months' experience in general nursing practice and whose records show a standing above average, and potential ability for teaching and executive work. Head Nursing practice under supervision approximates a half-year's work (four months). Application should be made at least two months before the date of proposed entry. The program is as follows:

H III. PROGRAM IN HEAD NURSING

Biology (4 yr. hrs.)	Nursing Education 2
Education 8	Nursing Education 3
English 1	Nursing Education 4
Psychology 4	Public Health Nursing 5
	Field Work

HALF-YEAR PROGRAM IN PREPARATION FOR SCHOOLS OF NURSING

By an arrangement with the Children's Hospital and the Deaconess Hospital, students who are admitted to the schools of nursing in those institutions are received by the College for instruction in the scientific subjects necessary for their professional work. This program occupies one half-year, and is repeated, beginning in February. Other students are admitted to it if the number received from the above hospitals is less than that for which provision has been made; such students must, however, meet the entrance requirements of the College. This program is as follows:

H V. HALF-YEAR PROGRAM

Biology C
Biology D
Chemistry A
Dietetics B
Foods B

H VI. FOUR MONTHS PROGRAM IN FIELD WORK

The Four Months Program in Field Work is open to registered nurses who are graduates of approved schools of nursing, and

also to pupil nurses from such schools, who have completed two years of training, including obstetrics.

Applicants must be graduates of approved high schools, or have received an equivalent preliminary education.

This course is designed to furnish the fundamental practice required in the various forms of public health nursing. The usual arrangement consists of approximately two months of supervised work in the districts of the Community Health Association, one month in infant welfare and tuberculosis nursing, ordinarily under the direction of the Boston Health Department, and one month with a social agency. Other opportunities for practice or observation, especially in school nursing or rural nursing, may be arranged for a limited number of qualified students. Not more than one month may be devoted to such work. Students spend from thirty-five to forty hours a week in field work, and in addition take Public Health Nursing 1. The course is repeated, beginning in January.

Students who complete this program satisfactorily and who also meet the requirements for admission to the College may receive credit for the field work of the One-Year Program in Public Health Nursing. They are urged to complete this program leading to a certificate.

SUMMER COURSES

Full information concerning the summer courses in nursing education is contained in a bulletin which may be obtained from the Registrar of Simmons College.

K. SCHOOL OF ENGLISH

THE School of English offers programs for students who wish to fill positions in editorial or publishing offices, or to write; and for students who wish to teach English in high or other secondary schools, or to proceed to the university for graduate work in English. A one-year program is offered for graduate students and those who have completed three years at another accredited college, including certain specified subjects. All programs lead to the degree of Bachelor of Science.

THE FOUR-YEAR PROGRAM

The four-year program includes courses of the usual type which are taught at the liberal arts colleges and which furnish the broad foundation, information, and training that are essential for satisfactory professional work. The program of the first two years in the School of English is uniform, consisting largely of required work. At the beginning of the third year, students enter either Group I or Group II specializing in English literature and composition and taking certain technical courses of vocational value. Those students who wish to seek positions in editorial or publishing offices or certain semi-literary positions in commercial houses enter Group I. They should have a knowledge of several of the following subjects which may be included in this program: advanced or specialized composition; proof-reading, editing, preparation of copy, and forwarding of copy through the press; commercial correspondence and superintendence of correspondence; library usage and research; stenography and typewriting; elementary journalism; advertising; and translating. Students who are interested primarily in creative writing, and not in editing or office work, may specialize in composition and literature. Group II is intended primarily for students who wish to teach English in high schools or other secondary schools, or to proceed to the university for graduate study in English.

This program is a condensation of the work of the third and fourth years of the K I program. It is primarily for students who have completed three or four years at another accredited

* Third year French, German, or Spanish must be completed before graduation.

** Physics is required unless it has been offered for entrance.

† Optional. If either subject is omitted the number of hours of electives increases.

‡ Students planning for graduate study in English may omit the courses in Education and substitute electives.

college, and the program for each student therefore varies somewhat according to the subjects already completed elsewhere. There are definite subject prerequisites, and every candidate must be able to satisfy the Director that she has a real aptitude for the work and a sufficient facility in the use of English. The program leads to the degree of Bachelor of Science.

VOCATIONAL PRACTICE AT THE WOMEN'S EDUCATIONAL AND INDUSTRIAL UNION

The Women's Educational and Industrial Union, organized in 1877, has placed its facilities for vocational practice at the disposal of the College for the use of the students in the regular programs of the Schools of Household Economics, Secretarial Studies, and Library Science, and for a limited number of qualified students not otherwise connected with the College. This practice is provided in their sixteen industrial, social, and educational departments employing four hundred and twenty-five people. The school lunch department prepares and serves noon lunches to twenty-four thousand school children in thirty-seven Boston senior and junior high schools. The food shops and restaurants cater to the needs of approximately nine hundred thousand each year. It is the variety and the extent of the experience available under representative commercial conditions which makes this opportunity so valuable to the student. All practice is under the general supervision of the Director of Vocational Practice. The following departments are available for observation and practice:

FOOD SHOPS AND RESTAURANTS

- New England Kitchen
- Lunch Department
 - Providence Room
 - Boylston Room
 - Members Room
- Arlington Noon Lunch
- Food Shop
- Sandwich Kitchen

FOOD PRODUCTION DEPARTMENTS

- School Lunch
- Bakery
- Cake Kitchen
- Ice Cream Plant

ADMINISTRATIVE DEPARTMENTS

- Executive Secretary
- Financial
- Purchasing

EDUCATIONAL DEPARTMENTS

- Bookshop for Boys and Girls
- Appointment Bureau
- Vocational Training

THRIFT DEPARTMENT

- Industrial Credit Union

Additional information regarding these opportunities, and the fees that are charged, may be obtained from the Registrar of Simmons College.

THE COLLEGE EDUCATIONAL BUILDINGS

THE MAIN COLLEGE BUILDING

The main College building is situated near the southern end of The Fenway, facing the city. It may be reached by all Brookline Avenue buses, which leave Kenmore station, and by all Huntington Avenue cars. The building occupies a frontage of 480 feet and has a ground area of about 36,000 square feet. The central portion was completed in 1904, the west wing in 1909 and the east wing in 1929.

THE COLLEGE LIBRARY

To supplement the instruction in the various courses, a reference library has been established, to which extensive additions are being made every year. The books are accessible during the hours of the day while the College is in session. Students of the College, whether residents of the city of Boston or not, are allowed the privileges of the Boston Public Library. Non-residents must obtain special cards for these privileges from the Librarian of the College.

THE GYMNASIUM AND THE ATHLETIC GROUND

A large room on the first floor of the west wing of the main College building has been equipped with the necessary apparatus for the Department of Physical Training. The shower baths, dressing rooms, and lockers are in the basement. Behind the College building is an athletic ground with tennis, handball, and basketball courts and provision for archery, hockey and golf. A moderate amount of work in gymnastics, dancing, and supervised games is required of all the first-year students in residence who are following a four-year program. For other students exercise is optional. The Director of Physical Training examines every first-year

student and advises her as to a tentative scheme for exercise. This examination supplements the information furnished by the physician's certificate which the candidate has filed in advance; and together they serve as a basis for deciding whether or not she is physically fitted for undertaking the College course. The College reserves the right to reject any candidate if, in the opinion of the College physician and the Director of Physical Training, such action is justified. Each student taking gymnastic work is expected to provide herself with a suitable costume specified by the College.

THE LUNCHROOM

A lunchroom for non-resident students is provided in the basement of the west wing of the main College building. Luncheons are served from eleven-thirty to one-fifteen o'clock every day when the College is in session.

THE COÖPERATIVE STORE

The Simmons Coöperative Store, in the basement of the east wing of the main College building, is open every week day except Saturday from eight-thirty to four o'clock. On Saturday the store closes at twelve o'clock. Here students may purchase or order books, stationery, and so forth, at the lowest market prices. At the end of the year the net profits revert to the students.

THE SCHOOL OF SOCIAL WORK

The classes for the fourth-year students and special students in the School of Social Work are held at 18 Somerset Street. In this building is the special library, including the important and valuable collection of books and pamphlets relating to charities, which was transferred to the College by the Boston Children's Aid Society. The library is open to all members of the College.

THE PRINCE SCHOOL OF STORE SERVICE EDUCATION

The classes for students in the Prince School of Store Service Education are held at 19 Allston Street, Beacon Hill, Boston.

RESIDENCE

The student body of Simmons College is almost equally divided between resident and non-resident students. All undergraduate students who do not live in their own homes or with immediate relatives are expected to live in the College houses, under the care of the College. Exceptions to this rule may be made only with the approval of the Dean secured *in advance*, and any changes in residence during the College year must also receive her previous approval. The Dean does not ordinarily grant permission to first-year students to live outside the College for the purpose of earning board and room.

THE FRANCIS STREET HOUSES

The dormitories at numbers 21, 26, and 36 Francis Street, number 240 Kent Street, and number 14 Newell Road, Brookline, comprise the Francis Street Houses. All resident members of the freshman class live in this group. Most of the rooms in these houses are double rooms, although each house contains a limited number of single rooms. The charge for residence ranges from \$350 to \$450, most of the rooms being \$400. This charge does not include luncheons on the days when the College is in session, when luncheon may be obtained in the College lunchroom at an additional cost of about \$50 a year. Every dormitory student is required to pay annually a fee of \$3 for the maintenance of the laundry.

THE BROOKLINE AVENUE DORMITORIES

The principal dormitories are situated in Boston about half a mile from the main College building, on the land bounded by Brookline Avenue, Short Street, and Pilgrim Road. This group consists of North Hall and South Hall, each accommodating about fifty-five students, and nine small houses varying in capacity from twelve to twenty-two students. These are Appleton, Bellevue, Brick, Brookline, East, Longwood, Pilgrim, Students' and West Houses. Most of the rooms in

North Hall and South Hall are single rooms, but each Hall contains ten two-room suites with accommodations for two. The small houses consist almost entirely of double rooms. The charge for residence in the Halls is \$450 a year on the first floor, \$500 on the second and third floors, and \$475 on the fourth floor for each student whether in a single room or in a suite. In the small houses, other than Brookline House, the charge is \$450, except for certain rooms at \$350 which are assigned, after application to the Dean's Office, to students who need to keep their expenses as low as possible. In Brookline House the rate is uniformly \$350. The charge for residence in all the houses includes table board, heat, and electric light. There is a laundry fee of \$3 as in the Francis Street Houses.

HOUSE FOR COLLEGE GRADUATES

Longwood House, in the Brookline Avenue dormitory group, is reserved for college graduates. There are accommodations for sixteen students in both single and double rooms. The charge for residence, including three meals, is \$350, \$450, or \$500 according to the size and location of the room. It should be noted that in case of withdrawal during the college year the customary rebate will be granted only if the student withdraws from the college and not for a change of residence only.

ROOM FURNISHINGS

The College provides the *necessary* furniture for all rooms, but does not include rugs or bookcases. Rugs should not exceed four and one-half by seven and one-half feet in size. The bed is a single couch, three feet wide; pillows are twenty-two inches wide. The student supplies table napkins, towels, and all her bed linen, with the couch cover and any blankets in excess of the two provided by the College. The bed linen is included in the student's personal laundry, for which she makes her own arrangements. Students are expected to care for their own rooms.

ASSIGNMENT OF ROOMS

Students already in residence choose their rooms in the spring. Lots are drawn in the order of classes, the juniors having the preference. The payment of an *advance* deposit of \$25 is required before any reservation of rooms can be made. The entire amount of this deposit is returned if the student gives up her room before July 15, and \$20 are returned if the room is given up after July 15, provided that the place is filled on or before the opening day of College. If it is not filled, no refund is made. Unless a room is occupied, it is not reserved after the second week of the College year except by special agreement. If, after all the students in the upper classes have been accommodated, there are any rooms left vacant, they are assigned, in the order of application, to students entering with advanced standing from other colleges.

Candidates for admission to the College as resident freshmen should make early application to the Registrar of the College. An *advance* deposit of \$25, to be deducted from the first payment for residence, is required when the application is made. Ordinarily, room assignments are not made until August, but in no case can a place be assigned to a prospective freshman until after her formal admission to the College. Room-mates are assigned through the Dean's office. If a student withdraws her application for a room not later than July 15, the entire amount of the advance deposit is returned to her. Twenty dollars are returned to a student who withdraws after July 15, provided that the place reserved for her is filled on or before the opening day of College. If it is not filled, no refund is made.

REGULATIONS AND PAYMENTS

The College houses are under the general supervision of the Dean, who is represented by the heads of the two groups, with a resident assistant in each house. The direction of matters of order and conduct is assumed by the Student Gov-

ernment Association. The dormitory equipment and the dining hall are under the care of the House Superintendent.

Bills for residence must be paid in advance. One-half of the residence charge (less the deposit) must be paid before the end of the second week after classes begin in September, and the remaining one-half before the end of the second week after classes begin in January.* Checks should be made payable to Simmons College. If a student is obliged to withdraw from the College before the end of the year, the charge for residence is one-thirtieth of the annual rate for each week or fraction of a week of residence from the beginning of the College year to the date when the formal notice of withdrawal is received by the Dean from the student's parents or guardian. Any balance is returned to the student. The minimum charge for residence is \$25, and no rebate is made unless the amount paid by a student exceeds that sum.

Students may enter the College houses the day before the term opens, and are expected to leave the first day after their final College exercise. Exceptions to this rule are made only with the consent of the Dean.

A deposit of \$5 is collected by the Bursar's office from all dormitory students at the beginning of the college year to cover the use of extra electric current as well as any fines which may be imposed for the defacement of walls and other damage. That part of the deposit against which there is no charge is refunded in June.

HEALTH

Every candidate for admission to the College is required to present a satisfactory certificate of health for which the College provides a blank. In cases where it seems advisable, a medical examination may be required after registration. For the convenience of students, the College provides a

* An exception to this method of payment is made in the case of students in the Prince School, who pay two-thirds of the residence charge in September and the balance on or before February 1.

list of accredited physicians, including specialists. A woman physician on the College staff holds office hours at the College three days a week. She acts in an advisory capacity only and gives no treatments. Students may consult her freely without charge. A student in residence falling ill is expected to consult one of these physicians unless some other preferred arrangement has been specified in advance by her parents or guardian. In cases of contagious disease or in emergencies requiring immediate decision, the College assumes the obligation of taking such action as may seem, at the time, to be for the best interests of all concerned. A student may at any time be required to withdraw from College if, in the opinion of the College authorities, the condition of her health is such as to make it unwise for her to remain.

ADMINISTRATION AND GOVERNMENT

ORGANIZATION OF THE COLLEGE

The immediate government of the College is intrusted by the Corporation to the College Faculty, which consists of the President, the Dean, the Professors, Associate Professors, Assistant Professors, and such Instructors as may be designated by the Corporation. The Dean is charged with the oversight of the conduct of the students.

At the beginning of each year every student is required to register her proposed schedule of studies. The Director of the School in which a student is pursuing her technical work has the immediate supervision of her progress and standing and must approve all changes in accepted schedules of studies.

All questions regarding the admission of students, and the credit to be given for courses pursued at other institutions, are determined by the Committee on Admission and Programs which consists of the Dean, the Registrar, and seven members of the College Faculty.

ATTENDANCE

Attendance is required at all College exercises. Absences due to illness or other unavoidable causes may be compen-

sated for by additional work or special tests. If excessive, absence may cause the student's withdrawal from the course.

COLLEGE EXERCISES

The College exercises occupy the hours between quarter of nine o'clock and four o'clock from Monday to Friday, inclusive. College appointments must take precedence over any other engagements during these hours.

Three days each week at noon there is a general exercise which includes a brief address by an officer of the College, or by some other speaker. Attendance at one exercise each week is expected of all full-time students in the undergraduate division.

CONDUCT AND SCHOLARSHIP

A student is received only on the condition that her connection with the College may terminate whenever, in the judgment of the Faculty, she has failed to show sufficient industry or scholarship to justify her relation with the College. A student may be dismissed who does not meet the requirements of conduct and order, or whose behavior is inconsistent with the standards of the College.

GRADES AND VALUATIONS

The grades which are given at the end of each year, based on the class work and on the examinations given at the end of the year, are: A (Excellent); B (Good); C (Fair); D (Low); E (Failure). The grade of D implies that special conditions regarding dependent courses and graduation may be imposed by the Faculty. In case any such conditions are imposed, both the student and the parents or guardian are notified.

In determining the general quality of a student's work, the following valuations have been established: **A = 4, B = 3, C = 2, D = 1.**

COLLEGE ACTIVITIES

COLLEGE PUBLICATIONS

In May of each year the senior class publishes the *Microcosm*, which gives information about the College Faculty, the senior class, and the various organizations of the students. The book is illustrated by photographs of members of the Faculty and of the seniors, and also by pictures showing episodes in the life of the College.

The *News* is published weekly by the students, and contains information on matters of current interest.

COLLEGE ORGANIZATIONS

The Student Government Association, of which every student automatically becomes a member when she registers, is particularly interested in the Honor System. Under this system examinations and tests are not proctored, since the students assume the responsibility for the conduct of the classes. A branch of this Association has established the rules which contribute to the maintenance of the College regulations in the dormitories.

Other organizations representing the various activities of the students are: the Athletic Association, the Dramatic Club, the Debating Society, the Poetry Club, the Musical Association, the Young Women's Christian Association, the Menorah Society, the Christian Science Society, the Unity Club, the Newman Club, and the Student Forum.

DEGREES AND CERTIFICATES

THE DEGREE OF BACHELOR OF SCIENCE

The degree of Bachelor of Science is conferred upon those students who have completed the following requirements:

1. All entrance requirements.
2. All the prescribed subjects in some definite four-year or five-year program printed in the catalogue, or in some specific program approved by the Committee on Admission and Programs.

3. At least 60 year hours.
4. An evaluation of at least 112 * in the quality of the courses.
5. An evaluation of at least 28 * in the courses of the fourth or final year.
6. A similar standard of quality for all technical work.

An applicant for the degree must do her final year of work at the College.

Abstracts of the records are issued to other students, showing the lists of subjects studied and the grades attained in each.

THE DEGREE OF MASTER OF SCIENCE

The conditions for obtaining the degree of Master of Science are as follows:

1. Every candidate for the degree of Master of Science must hold the degree of Bachelor of Science from Simmons College, or a baccalaureate degree from some other approved institution.
2. The candidate must fulfill the minimum requirements which would be necessary for the degree of Bachelor of Science in the particular school of Simmons College in which she is registered. If she is registered in a school in which there is no undergraduate technical program, she must offer such courses as may be prescribed as prerequisites to the graduate work of the school.
3. The candidate for the degree of Master of Science must pursue her studies at the College for at least one year after receiving the baccalaureate degree.

The work must be the equivalent of 16 year hours and must include one major and one minor subject. The work in the major subject must be three-fourths of a full year's work and must be more advanced than the work required for the baccalaureate degree. The work in the minor subject must be one-fourth of a full year's work and must be

* See statement on page 76.

done in a department other than that in which the major work is done. A grade of A or B must be attained in all work accepted for the degree of Master of Science.

4. The subjects elected must be approved by the Faculty Committee on Graduate Students, and the courses must be approved by the heads of the departments in which they are taken.

CERTIFICATES

Certificates are granted in June to students who complete successfully the one-year programs in Library Science, in Store Service Education, in Public Health Nursing, and in Laboratory Training, and the two-year program in Social Work.

CHARGES FOR INSTRUCTION

TUITION FEES

For the year 1934-35 the charges for instruction are as follows:

1. Except as stated below, the fee for a full-time program is \$250 a year. The fee is payable in two equal installments, the first in September, the second in January.

2. Except in the School of Social Work the fee for a partial program (fewer than twelve hours) is on the basis of \$75 for a four-hour year course. In the School of Social Work the fee is \$17.50 for each term course. (Field work for each term counts as one course.)

3. For the one-year program in Public Health Nursing (H II), and for the one-year program in Head Nursing (H III), the fee is \$185, payable in two equal installments, the first in September, the second in January *; for the Four Months Program in Field Work in Public Health Nursing (H VI), \$40; and for the half-year program in preparation for schools of nursing (H V), \$75. Those taking part-time work in the Head Nursing program pay on the basis of \$15

* Students who enter in January, 1935 pay \$145 in January, and \$40 at the beginning of the period of field work in September.

for each one year unit (approximately thirty hours of class work).

4. The fee for the program in the Prince School of Store Service Education is \$300, payable in two installments, the first of \$180 in September and the second of \$120 on February 1.

LABORATORY FEES AND DEPOSITS

1. For certain courses in household economics, business methods, typewriting, chemistry, biology, and physics, an additional fee is charged to cover the cost of the materials used. These fees are as follows:

	First payment	Second payment		First payment	Second payment
Biology 1		\$2.00	Chemistry 13	\$1.50	\$1.50
Biology 2		\$2.00	Chemistry 20	6.00	6.00
Biology 3		2.00	Chemistry A		\$3.00
Biology 4	\$2.00	2.00	Clothing 1		2.00
Biology 5	2.00	2.00	Clothing 2	3.75	3.75
Biology 8	2.00	2.00	Clothing 3		8.00
Biology 10	2.50	2.50	Clothing 4		2.50
Biology 13	2.50	2.50	Clothing 5		3.00
Biology 14	1.00		Clothing 6	1.00	1.00
Biology 15		1.00	Design 2	2.50	2.50
Biology 16	3.00		Design 3	3.00	3.00
Biology 18	2.00	2.00	Dietetics 1		5.00
* Biology 20			Education 6		3.00
Biology C		1.00	Filing		1.50
Biology D		2.00	Foods 1	7.50	7.50
Chemistry 1	2.50	2.50	Foods 3		11.00
Chemistry 2	2.50	2.50	Foods 4	3.00	3.00
Chemistry 3	4.50	4.50	Foods 5		4.00
Chemistry 4	4.50	4.50	Foods B		5.00
Chemistry 5	1.50	1.50	Lunch. Management	2.00	
Chemistry 6	3.00	3.00	Office Practice 1		2.50
Chemistry 7	1.50	1.50	Physics 1		1.00
Chemistry 9	1.50	1.50	Physics 2	2.00	2.00
Chemistry 10		3.00	Physics 3	2.00	2.00
Chemistry 11	8.00		Physics 4	2.00	2.00

* Fee to be determined by the nature of the problem selected.

	<i>First payment</i>	<i>Second payment</i>		<i>First payment</i>	<i>Second payment</i>
Physics 5	\$2.00	\$2.00	Typewriting 5	\$2.50	\$2.50
Physics 7	1.50	1.50	Typewriting 6	.75	.75
Secretarial Training 3	1.50	1.50	Typewriting 7	.75	.75
Secretarial Training 4	.75	.75	Typewriting 8	.75	.75
Typewriting 1	1.50	1.50	Typewriting 9	.75	.75
Typewriting 2	1.50	1.50			

2. For certain courses which include laboratory work a deposit is also required, to cover the cost of breakage, the balance to the credit of any student being returned at the end of the course. These deposits, which are payable at the beginning of the course, are as follows:

Biology 1	\$3.50	Chemistry 1	\$4.50
Biology 2	1.00	Chemistry 2	4.50
Biology 3	3.00	Chemistry 3	7.50
Biology 4	7.00	Chemistry 4	7.50
Biology 5	7.00	Chemistry 5	5.00
Biology 8	3.00	Chemistry 6	5.00
Biology 10	5.00	Chemistry 7	5.00
Biology 13	10.00	Chemistry 9	5.00
Biology 14	3.50	Chemistry 10	5.00
Biology 15	3.00	Chemistry 11	10.00
Biology 16	3.50	Chemistry 13	5.00
Biology 18	3.00	Chemistry 20	7.50
* Biology 20		Chemistry A	3.00
Biology C	1.00	Clothing 5	2.00
Biology D	3.00	Library Science (C 4, C II)	10.00

* Deposit to be determined by the nature of the problem selected.

GRADUATION FEE

A graduation fee of \$5, which includes the cost of the diploma, is required of all candidates for the degree.

PAYMENTS

The first bill includes one-half of the annual charge for tuition, the first payment of the laboratory fees, the deposit required in science courses, and one-half of the annual charge for residence. The second bill includes the remainder of

the annual charge for tuition, laboratory fees, and residence. Payments are due on the first day of classes in September and in January, and students are expected not to continue in their classes after the end of the second full week of classes unless their bills have been paid or adjusted.

A fee of ten dollars, to be deducted from the first tuition payment, is required at the time of application. This fee is not returned if the application is withdrawn, or if the applicant is not able to meet the entrance requirements. The fee is not required in the cases of applicants for the briefer programs in the Schools of Social Work and Public Health Nursing.

A student who withdraws during the College year is charged for tuition nine dollars for each week or fraction thereof. The minimum fee is ten dollars. The date of withdrawal is considered that on which notice is received by the Dean from the student's parents or guardian. Checks should be made payable to Simmons College.

Students are admitted to the Prince School for the full program only, which covers an academic year beginning in September and ending in June. A student who withdraws because of illness or for reasons approved by the Director is charged \$11.25 for each week or fraction thereof, except for the first week, for which the minimum fee is \$10.

SCHOLARSHIPS AND STUDENT AID

Financial assistance is available through a limited number of scholarships and gifts for student aid, and from a students' loan fund.

Candidates for financial aid should make written application to the Committee on Scholarships and Student Aid before May 1 for consideration at the June meeting, or before August 15 for consideration at the September meeting. A form for this purpose is provided on request. A personal conference with the Dean and the Committee on Scholarships and Student Aid is required before aid is granted, and the continua-

tion of it is in every case dependent upon the student's character and ability, as shown in her College work. *

Opportunities for service in connection with the College may be provided in certain instances. Students who desire to earn any part of the cost of residence may receive information upon written application to the Dean.

SCHOLARSHIPS

A number of scholarships have been founded for the aid of meritorious students. Subject to any special conditions established by the donors, these scholarships are ordinarily awarded to those students in the third and fourth years of their courses who are in need of pecuniary assistance and who have shown themselves most worthy of encouragement. These scholarships are the following:

The *Sewall Scholarships*, derived from the accumulated fund of the former Boston Cooking School Corporation and available for two students in the School of Household Economics.

The *Sarah Orne Jewett Scholarship*, contributed by friends of the late Sarah Orne Jewett, preference to be given to a student from Maine.

The *Mary Morton Kehew Scholarship*, established as a memorial by the family of the late Mrs. Mary Morton Kehew, for many years a member of the Corporation of Simmons College.

The *May Alden Ward Memorial Scholarship*, established by various organizations and individuals in memory of the late Mrs. May Alden Ward.

The *Sarah E. Guernsey D. A. R. Scholarship*, established by the Massachusetts Chapter of the Daughters of the American

* Because of limited resources the Committee on Scholarships and Student Aid cannot ordinarily consider, previous to entrance, applications from college graduates or from students entering with advanced standing. This does not apply to students seeking admission to the Prince School or to programs at the School of Social Work, who may be considered for financial aid upon application to the Director of the School.

Revolution in honor of Mrs. Sarah E. Guernsey, a former President-General of the National Society. In its award preference is to be given to an orphan of an American soldier.

The *Mrs. Winthrop Sargent Scholarships*, three in number, established in memory of the late Mrs. Winthrop Sargent of Boston, for the benefit of students in the School of Household Economics.

The *Nora Saltonstall Scholarship*, a memorial scholarship for the benefit of a student in the School of Social Work.

The *Dorothy Spaulding Scholarship*, preference being given to a graduate of Potter Academy, in Sebago, Maine.

The *Sutter Memorial Scholarship*, established in memory of the late Emma M. Sutter.

The *Caroline T. Slater Scholarship*, a gift of the trustees of the Andrew C. Slater Fund. In its award preference is to be given to a student from Massachusetts.

The *Women's Scholarship Association Fund Scholarship for Jewish Girls*, to be awarded to a student in the entering class.

The *Winifred Armstrong Scholarship*, for the benefit of a student from Calais, Maine.

The *Maria Howard Hilliard Memorial Fund Scholarship*, preferably for a student in the School of Household Economics.

The *B. Marion Brown Memorial Fund Scholarship*, for a student in the School of General Science or for one in the School of Household Economics who is specializing in chemistry.

The *Katharine Lent Stevenson Scholarship*, for the benefit of a member of the Woman's Christian Temperance Union, which reserves the right to appoint or approve recipients of the scholarship. Beneficiaries must agree to devote as many years, after the completion of the college course, to social

work along the line of effort of the W.C.T.U. as have been spent in enjoying the benefit of the scholarship.

The *Amasa J. Whiting Scholarship*, to assist in the payment of the tuition of a worthy and deserving student.

The *Microcosm Scholarship*, provided from funds accumulated by the successive boards of editors of the *Microcosm*.

The *Frances Rollins Morse Memorial Scholarship*, established by friends of the late Miss Morse, a charter member of the Corporation and for many years a devoted friend of the College and its students. It will be awarded to the applicant in the senior class who is regarded as most worthy of recognition.

The *Lillian Clark Brown Scholarship*, preference being given to a resident of New Britain, Connecticut, in need of financial assistance.

The *Mitchell Scholarship*, preferably for a graduate of Calais Academy and High School, Calais, Maine.

In addition to the preceding endowed scholarships, the Student Government Association has provided a scholarship available in the college year 1934-35.

THE ALUMNAE HONOR AWARDS

Two prizes, of one hundred dollars each, are awarded annually to the two fourth-year students who are most distinguished for scholarship and general excellence.

STUDENT AID

For several years an appropriation has been made by the Committee of the Permanent Charity Fund for the relief of needy students. Annual gifts are received and placed at the disposition of the Dean for similar purposes. Grants from these funds do not involve obligation of repayment.

LOAN FUNDS

A Students' Loan Fund has been accumulated from the repayments of scholarship loans of previous years, and the income from this fund, together with appropriations by the Corporation, may be loaned by the Committee on Scholarships and Student Aid to any students needing assistance, upon an agreement to repay the amount of the loans without interest beginning on the first day of November following graduation or withdrawal, at the rate of five dollars a month for eight months, and thereafter at the rate of ten dollars a month until the loan is paid in full. The Dorothea L. Dix Fund and the Women's Scholarship Association Loan Fund are also available for loans, the latter preferably to juniors and seniors.

A special loan fund for students in the graduate years of the School of Social Work has been founded through the generosity of Mrs. Clarence Gamble of Philadelphia. The conditions of the loan and its repayment may be learned upon application to the Director of the School of Social Work.

COURSES OF INSTRUCTION

UNLESS it is otherwise stated in the description, each course occupies four periods (or hours) of forty-eight minutes each a week. Laboratory and practice exercises occupy two or three periods, and other exercises one period. Whenever a course varies from the normal four periods, the total number of hours a week is indicated.

The requirements for the different years in the various programs are shown on the preceding pages in the outlines of the programs in each School.

Courses indicated by numerals are given for the full college year unless otherwise stated.

Courses indicated by letter (*e.g.*, Chemistry A) are not counted toward a degree, unless taken in connection with additional work prescribed by the Faculty.

The number of year hours for each course is indicated.

Courses for the first third begin September 17; for the second third, December 3; for the last third, March 4.

Courses for the first half begin September 17; for the second half, January 21. (This does not apply to the HV program.)

FINE ARTS 1.

[2 yr. hrs.

History of Fine Arts. The aim of this course is to give a general view of the development of painting, sculpture, and architecture from their earliest beginnings to the present time. Some account is taken of the decorative arts of Renaissance Italy and eighteenth century France. Distinguished examples are shown by lantern slides, or visited in the museums of Boston and Cambridge, and discussed with the view of establishing a practicable and usable basis for determining degrees of artistic excellence. Lectures, reading, study of lantern slides, photographs, and the collections of the Museum of Fine Arts, the Fogg Art Museum, and Fenway Court.

Mr. BUSH.

Two hours a week.

FINE ARTS 3.

[2 yr. hrs.

Modern Art. A consideration of the French painters since Cezanne, of the French sculptors since Rodin, and of contemporary European and American artists. Primarily an appreciation course. Lectures, lantern slides, and consideration of museum pieces.

Open to students who have completed *Fine Arts 1*, or the equivalent. The number of students is limited.

Mr. BUSH.

Two hours a week.

[FINE ARTS 4.

[2 yr. hrs.

Oriental Art. A survey of the philosophic backgrounds of the Orient, with consideration of the sculpture and painting of Persia, India, China, and Japan. Lectures, lantern slides, and museum study.

Open to students who have completed *Fine Arts 1*, or the equivalent. The number of students is limited.

Two hours a week.

Not given in 1934-35.]

FINE ARTS 5.

[2 yr. hrs.

Interrelations in the Arts and Literature. A correlation of the literature, painting, sculpture, and architecture of Greece, medieval Europe, and eighteenth century France and England. Representative works in fine arts and literature are treated as related expressions of the thought and habit of each period. The work in art is supplemented by lantern slide and museum study.

Mr. BUSH, Mr. SYPHER.

Two hours a week.

BIOLOGY AND HEALTH

BIOLOGY 1.

[2 yr. hrs.

General Biology. Lectures, recitations, and laboratory work. This course aims to acquaint the student with the fundamental phenomena of living things, and with general biological laws and theories. Wherever possible, biological principles are illustrated by the laboratory study of both plant and animal forms.

Miss HOLT, Mrs. SARGENT, Miss NEWTON.

Biology 2, 3, 4, and 5 are open only to students who have completed *Biology 1*, or the equivalent.

One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the second half.

BIOLOGY 2.

[2 yr. hrs.

Biology and Physiology. Lectures, recitations, and laboratory work. This course introduces the subject of biology as a basis for the study of cell function and physiology. In the physiology the aim is to treat most of the topics in outline while amplifying the subject of nutrition. The central facts dwelt upon are those which bear on the digestion of food, its transformations and service in the body, and the balance of income and outgo.

Mrs. SARGENT.

One lecture, one recitation and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.

BIOLOGY 3.

[2 yr. hrs.

Bacteriology. Lectures, recitations, and laboratory work. The course is designed to give a general knowledge of bacteria, yeasts, and moulds, and their application to the affairs of daily life. Special attention is paid to the place of micro-organisms in nature and their relation to problems of food preparation and preservation, and to health. Modern methods are used in preparing cultures for the laboratory and in the study of bacteria in air, water, milk, and ice. The course includes some study of the microscopic methods of detecting pathogenic bacteria.

Mr. HILLIARD, Miss KELLY.

One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.

BIOLOGY 4.

[4 yr. hrs.

Comparative Anatomy and Physiology of Vertebrates. Lectures, recitations, and laboratory work. The first part of the course deals with comparative anatomy of vertebrates, with emphasis upon the evolution of mammalian structures. The latter part deals mainly with human physiology. The subjects discussed in the lectures include the physiology of the central nervous system, the sense organs, the muscular system, circulatory system, respiratory system, excretory system, endocrine system, and metabolism.

The laboratory work supplements the lectures, and includes individual work by the student on contractile and nerve tissues, circulation, metabolism, endocrines, and sense organs.

Miss HOLT, Mr. RICHARDSON.

Open only to students who have completed *Biology 2 and 3, or Biology 14 and 15, Chemistry 1, and Physics 1.*

Four laboratory exercises (total, eight hours) a week during the first half; one lecture and three laboratory exercises (total, seven hours) a week during the second half.

BIOLOGY 5.

[4 yr. hrs.

Anatomy and Physiology and Vertebrates. This course is planned for students in the second year of the H I program. It is introduced by a study of mammalian anatomy with consideration of the development of the systems, followed by a more general course in physiology, with emphasis upon metabolism.

Mrs. WITTON, Mr. RICHARDSON.

Open only to students who have completed *Biology 2* and *3*, or *Biology 14* and *15*, and *Chemistry 2*.

One lecture and three laboratory exercises (total, seven hours) a week.

BIOLOGY 6.

[2 yr. hrs.

The Prevention of Communicable Diseases. This course covers the same material as that described under *Biology 7*. It is given for the Public Health Nursing group and emphasizes those special problems in communicable disease prevention that are of most importance to them.

Mr. HILLIARD.

Open only to students who have completed *Biology 3*, or *Biology 15*, or *Biology D*, or the equivalent.

Given during the first half.

BIOLOGY 7.

[2 yr. hrs.

The Prevention of Communicable Diseases. The discussion of sources and modes of infection, and the theories of infection and immunity, is followed by a detailed consideration of specific diseases and their prevention. The course gives an appreciation of the modern health movement and a scientific knowledge of the preparation and uses of vaccines and antitoxins; the Schick test and toxin-antitoxin treatment; the serum treatment of pneumonia and scarlet fever; and other matters of present interest.

Mr. HILLIARD.

Open only to students who have completed *Biology 3*, or *Biology 15*, or *Biology D*, or the equivalent.

Two hours a week.

BIOLOGY 8.

[2 yr. hrs.

Public Health Laboratory Methods. This course is intended for students who wish to become either assistants in the laboratories of

boards of health or assistants to physicians. The course includes the laboratory diagnosis of the more common infectious diseases, such as diphtheria, tuberculosis, pneumonia, typhoid fever, and malaria, and also the sanitary analysis of water and milk. The discussions deal with the actual problems in the work of boards of health.

Miss BECKLER.

Open without restriction only to students who have a grade not lower than C in *Biology 3* or *15* and who have completed, or are taking, *Biology 7*.

Two laboratory exercises (total, four hours) a week.

BIOLOGY 9.

[4 yr. hrs.

Public Health Science. The discussions concern the numerous problems affecting public health arising from modern conditions of living and working. Among the questions considered are: health organization and administration; water, milk, and other food supplies; ventilation; sewage and garbage disposal; maternal, infant and child health; health education and industrial hygiene. A health survey of some community or a special field study is included in the course.

Mr. HILLIARD.

An elective, with the approval of the instructor, for students who are taking or have completed *Biology 3*, or *Biology 15*, or the equivalent.

BIOLOGY 10.

[4 yr. hrs.

Embryology, Histology, and Histological Technique. Lectures, recitations, and practical training in embryological and histological methods. The vertebrate embryology is based upon the development of the chick and of the pig. The histology deals with the principal animal tissues and stresses technical procedures.

Miss HOLT.

Open to students who have completed *Biology 2* and *3*, or *Biology 4*, with a grade not lower than C.

Four laboratory exercises (total, eight hours) a week.

BIOLOGY 11.

[2 yr. hrs.

Evolution and Genetics. This course is general and elementary in character and treats of evolution as a principle in cosmic, or physical, as well as organic nature. The latter part of the course treats of the laws of heredity and their practical application to human problems.

Mr. HARRIS, Miss HOLT.

An elective for Seniors in any School.

Two hours a week.

BIOLOGY 12.

[1½ yr. hrs.]

Municipal and Industrial Hygiene. The problems of sanitation and hygiene in communities and in industry are treated in their relation to the training of public health nurses.

Mr. HILLIARD.

Two hours a week. January to June.

BIOLOGY 13.

[4 yr. hrs.]

Hospital Laboratory Methods. This course includes a study of the standard methods of blood and urine analysis (chemical and microscopical). Wassermann technique, the preparation of vaccines, and examination for intestinal parasites. It is intended to include the principal quantitative methods used in the clinical laboratories of hospitals and in medico-chemical investigation. The instruction in Wassermann technique is given at the State Laboratory under Dr. Hinton, the Director.

Mr. HARRIS, Mr. RICHARDSON, Mrs. MONTAGUE, Dr. HINTON.

Open only to students who have completed *Biology 4* or *5*, and *Chemistry 5*.

One class and three laboratory exercises (total, seven hours) a week.

BIOLOGY 14.

[2 yr. hrs.]

General Biology. This is an introductory course in the biological sciences which lays the foundation for other courses in the department. It deals with the fundamental phenomena of living things and with general biological laws and theories, using plant and animal forms for illustration.

Miss HOLT, Mrs. SARGENT, Miss NEWTON.

One lecture and three laboratory exercises (total, seven hours) a week during the first half.

BIOLOGY 15.

[2 yr. hrs.]

General Bacteriology. This course follows *Biology 14* and aims to give a general knowledge of the bacteria and other micro-organisms. Considerable emphasis is placed upon technical procedure in the laboratory, but the discussions deal with the manifold applied fields of the subject such as sanitation, medicine, dairying, agriculture and immunity.

Mrs. WITTON.

Open to students who have completed *Biology 14* or the equivalent.

One lecture and three laboratory exercises (total, seven hours) a week during the second half.

BIOLOGY 16.

[2 yr. hrs.]

Human Physiology. This course deals with the general principles of physiology, special emphasis being placed upon muscle-nerve, cardio-vascular function as it relates to problems of physical education.

Miss NEWTON.

One lecture, one recitation and two laboratory exercises (total, six hours) a week during the first half.

BIOLOGY 17.

[1 yr. hr.]

Public Health Science. The principles of sanitary science and preventive medicine are dealt with in an elementary way in this course. The object is to survey the whole field of public health science with emphasis on application to promote health in the community and in schools.

Mr. HILLIARD.

Two hours a week during the second half.

BIOLOGY 18.

[4 yr. hrs.]

Biology for Social Workers. The work includes lectures, recitations, and laboratory work on the principles of general biology, as a foundation, and includes elementary physiology, bacteriology, and discussion of public health.

For students in the School of Social Work.

Mr. RICHARDSON, Miss YOUNG.

One lecture, one recitation and two laboratory exercises (total, six hours) a week.

BIOLOGY 20.

Thesis. Fourth-year and graduate students whose previous records warrant it, may undertake original research under the advice of the members of the department.

Mr. HILLIARD, Miss HOLT, Miss BECKLER.

The hours and credits are specifically determined for each student.

BIOLOGY COLLOQUIUM.

Seniors specializing in biology are required to attend the department colloquium which meets once a week throughout the year.

BIOLOGY 100.

[1 yr. hr.]

General Hygiene. The habits of right living, both as to individual conduct and social and community relations, are considered. Personal hygiene, the problems of sex, mental hygiene, public hygiene,

and the prevention of infectious diseases are surveyed so as to lay the groundwork for healthy, efficient college life.

Mr. HILLIARD, Dr. MEREDITH and other lecturers.

One lecture a week throughout the year.

BIOLOGY C.

Anatomy and Physiology. This course is planned for students in hospital training schools for nurses. Lectures, recitations, and demonstrations.

Miss WATSON, Miss NEWTON.

Two lectures, one recitation, and two laboratory exercises (total, seven hours) a week during the first half. Repeated in the second half.

BIOLOGY D.

Elementary Bacteriology. This course is planned for students in hospital training schools for nurses, to give a fundamental knowledge of bacteriology as related to nursing. The course also includes the consideration of problems of sanitary science, as related to infectious diseases. Lectures and laboratory practice.

Miss WITTON, Miss YOUNG.

One lecture, one recitation, and two laboratory exercises (total, six hours) a week during the first half. Repeated in the second half.

CHEMISTRY

CHEMISTRY 1.

[4 yr. hrs.]

Inorganic Chemistry. A study of the fundamental principles and the general descriptive matter pertaining to inorganic chemistry. This course is designed for students who intend to pursue further the study of chemistry.

Mr. MARK, Mr. NEAL, Mrs. PRATT, Miss GRANARA, Miss THORMER.

One lecture, two recitations, and two laboratory exercises (total, seven hours) a week.

CHEMISTRY 2.

[4 yr. hrs.]

General Chemistry. A course devoted to both inorganic and organic chemistry. About two-thirds of the time is spent upon the fundamental principles and the descriptive matter of inorganic chemistry and about one-third of the time upon an outline of organic chemistry. The course is intended for students who are to study chemistry for one year only.

Mr. MARK, Mr. NEAL, Mrs. PRATT, Miss GRANARA, Miss THORMER.

One lecture, two recitations, and two laboratory exercises (total, seven hours) a week. One lecture is substituted for one laboratory exercise in the last third.

CHEMISTRY 3.

[4 yr. hrs.

Organic Chemistry and Physiological Chemistry. A beginning course in organic chemistry presenting the typical compounds of carbon. Approximately half the course is devoted to material usually presented in elementary courses in physiological chemistry. Particular reference is made to the compounds found in plant and in animal tissues, and to the changes which food constituents undergo in cooking and in digestion.

Mrs. SARGENT, Miss DUDLEY.

One lecture, two recitations, and two laboratory exercises (total, seven hours) a week.

CHEMISTRY 4.

[4 yr. hrs.

Organic Chemistry. A general course in organic chemistry designed for students who are to take their major work in science.

Miss GRANARA, Miss DUDLEY

Chemistry 11 is open only to students who have a grade not lower than C in Chemistry 4.

Three classroom exercises and one laboratory exercise (total, seven hours) a week.

CHEMISTRY 5.

[2 yr. hrs.

Quantitative Analysis. A study of the fundamental methods of quantitative analysis designed to prepare for more advanced courses in quantitative analysis.

Mr. HARRIS.

One class and three laboratory hours (total, four hours) a week.

CHEMISTRY 6.

[4 yr. hrs.

Quantitative Food Analysis. A laboratory course in the fundamental methods of quantitative analysis and their application to food analysis, including the standard methods used in determining the composition of foods, and typical methods for detecting food adulteration.

Mr. HARRIS.

Open only to students who have completed Chemistry 3 or 4.

One class and seven laboratory hours (total, eight hours) a week.

CHEMISTRY 7.

[2 yr. hrs.]

Quantitative Methods. A course designed to acquaint students with the importance, problems and limitations of quantitative work, through the study of some elementary methods of analysis, including some food analysis.

Mr. HARRIS.

Open only to students who have completed *Chemistry 3*.

One class and three laboratory hours (total, four hours) a week.

CHEMISTRY 9.

[2 yr. hrs.]

Advanced Quantitative Analysis. A continuation of *Chemistry 5* including specialized methods such as those of gas analysis.

Mr. HARRIS.

Open to students who have completed *Chemistry 5*.

One class and three laboratory hours (total, four hours) a week.

CHEMISTRY 10.

[1½ yr. hrs.]

Qualitative Analysis. A study of the standard methods of qualitative analysis, with emphasis on the underlying theories of solution.

Mr. NEAL.

Two lectures and six laboratory hours (total, eight hours) a week during the last third.

CHEMISTRY 11.

[2½ yr. hrs.]

Advanced Organic Chemistry. A course planned to follow *Chemistry 4*, with special emphasis placed on the chemistry of the aromatic compounds. The laboratory work includes typical preparations, and the quantitative determination of carbon, hydrogen, and nitrogen in organic compounds.

Mrs. SARGENT.

Open only to students who have a grade not lower than C in *Chemistry 4*.

Two lectures and six laboratory hours (total, eight hours) a week during the first and second thirds.

CHEMISTRY 12.

[4 yr. hrs.]

Advanced Inorganic Chemistry. A review of descriptive inorganic chemistry, theoretical chemistry, the principles of analytical chemistry, and the relations of these branches to one another, with practice teaching in the laboratory and reports on articles in current chemical periodicals.

Mr. MARK.

Three lectures and one laboratory exercise (total, five hours) a week.

CHEMISTRY 13.

[2 yr. hrs.

Physical Chemistry. A general course presented from the kinetic, rather than the thermodynamic, point of view.

Mr. HARRIS.

Open only to students who have studied or are studying quantitative analysis.

One lecture and one laboratory exercise (total, four hours) a week.

CHEMISTRY 20.

Research. Fourth-year and graduate students whose previous records warrant it may undertake original research under the advice of the members of the department.

The hours and credits are specifically determined for each student.

CHEMISTRY A.

Elementary Chemistry. A half-year course for students following the H V program. Special attention is given to the chemistry of the human body.

Mr. NEAL, Mrs. PRATT.

One lecture, two recitations, and one laboratory exercise (total, five hours) a week during the first half. Repeated in the second half.

ECONOMICS

ECONOMICS 1.

[4 yr. hrs.

Principles of Economics. Discussions and special reports. A general introduction to the fundamental principles of economics approached through the study of current events and problems.

Miss STITES, Mr. SHAFFNER, Mr. FLEMING, Mr. LATHAM.

ECONOMICS 3.

[2 yr. hrs.

Economics of Consumption. Discussions and reports. This course includes a study of the influences acting on the consumption of wealth, and the extent to which control of these influences is possible. Treatment of the subject involves investigation of the standards and costs of living among various groups of consumers in the United States. In this connection the subjects of housing, food, clothing, health, education and recreation are approached from the point of view of present conditions, and of the opportunities afforded the consumer to increase the satisfactions obtainable from a given outlay.

Miss STITES.

An elective for students who have completed *Economics 1*, or the equivalent.

Two hours a week.

ECONOMICS 4.

[2 yr. hrs.]

Statistical Methods. Lectures, laboratory and field work. A survey of the methods by which statistical data are collected, presented, and analyzed. The course includes the consideration of such problems as sources of data, collection of data, tabulation, graphic presentation, averages, dispersion, skewness, correlation, index numbers, and analysis of time series.

Mr. LATHAM.

An elective for students who have completed *Economics 1*, or the equivalent.

Two hours a week.

ECONOMICS 5.

[2 yr. hrs.]

Labor Problems. Lectures, discussions, and reports. A survey of the history and present status of the wage-earning class and of programs of improvement operating through public opinion, government and the organized relations of workers and employers.

Mr. FLEMING.

An elective for students who have completed *Economics 1*, or the equivalent.

Two hours a week.

ECONOMICS 6.

[2 yr. hrs.]

Financial Organization and Practice. This course is divided into three parts. (1) The monetary and banking system of the United States, with particular reference to the theory and practice of commercial banking. Credit instruments and analysis, check collections and clearings, brokers' loans, bank supervision, recent tendencies in banking and suggested banking reforms are some of the topics considered. (2) Corporation finance. The nature and kinds of corporations and their securities, problems of promotion, management, and reorganization, financial structure and policies. (3) Investment from the viewpoint of the individual investor. Investment policies, characteristics of different industries and types of securities, financial analysis, the stock exchange, methods of protecting investment income, and forecasting.

The course is conducted largely by discussion and through the analysis of actual problems.

Mr. SHAFFNER.

An elective for students who have completed *Economics 1*, or the equivalent.

Two hours a week.

ECONOMICS 7.

[2 yr. hrs.]

Contemporary Economic Problems. Conferences, oral and written reports. Each student is assigned one or more topics for special study. Considerable freedom in choice of topics is permitted, and emphasis is placed upon guided individual investigation.

Mr. LATHAM.

An elective for students who have completed *Economics 1*, or the equivalent.

Two hours a week.

ENGLISH *

The courses in English furnish instruction in both composition and literature. Practice in composition is provided mainly in certain courses; but every written exercise in an English course is a test in composition and may be considered a failure on that ground alone.

ENGLISH 1.

[3 yr. hrs.]

Composition, Rhetoric, and Introduction to English Literature. Recitations, lectures, collateral reading, themes, and conferences. The course includes a study of poetic forms. Expository, descriptive, and narrative themes are required, which are discussed in personal conferences between the writers and their instructors, and which are in certain cases rewritten.

Miss HOLBROOK, Miss SLEEPER, Miss DODGE, Miss HOWE, Mr. DE MILLE, Miss CROCKETT, Miss MATLACK, Mr. SYPER.

Three hours a week.

ENGLISH 2.

[4 yr. hrs.]

Literature of the Nineteenth Century. Literature and composition. Lectures, recitations and conferences. A study of the chief poets, essayists, and novelists of the period, including Byron, Shelley, Browning, Carlyle, Ruskin, Dickens, George Eliot, and Hardy. Themes once a week, for the most part critical or expository, based on the reading.

Miss SLEEPER, Miss HOWE, Mr. DE MILLE, Miss CROCKETT, Mr. SYPER.

ENGLISH 3.

[4 yr. hrs.]

Narrative and Critical Writing. Lectures, discussions, collateral reading, themes, and conferences. This course is planned for students who are following programs in Library Science. The themes

* Electives open to sophomores, juniors and seniors: English 4, 5, 26. Electives open to juniors and seniors: English 6, 7, 9, 10, 11, 12, 14, 19, 28, 30, 31.

are exercises in narration, and in the criticism and analysis of prose fiction. Several novels and a large number of short stories are read and discussed.

Miss HOLBROOK, Miss DODGE, Miss MATLACK.

ENGLISH 4.

[2 yr. hrs.

The English Novel. A study of representative authors and important tendencies to the present day. Considered primarily as a literary type, the novel also is discussed in relation to certain phases of contemporary English life and thought. Due attention is given to recent developments in the field.

Miss HOLBROOK, Mr. DE MILLE, Miss MATLACK.

An elective for students who have completed *English 1*, or the equivalent. Students who are taking or who have taken *English 3* are not admitted to *English 4*.

Two hours a week.

ENGLISH 5.

[2 yr. hrs.

American Literature. Studies in fiction, poetry, biography, the essay, and drama of the 19th and 20th centuries. The course presents the main literary and social movements of the times. The reading is chiefly in a selected group of representative authors.

Miss CROCKETT.

An elective for students who have completed *English 1*, or the equivalent.

Two hours a week.

ENGLISH 6.

[4 yr. hrs.

The Literature of England from the Beginning to the Present Time. Lectures, reading, discussions, and reports. The first term is devoted to a survey of English literature before Pope; the second, to a study of Shakespeare and Milton; the third, to a survey from Pope to the present time.

Mr. GAY, Mr. DE MILLE.

An elective for students in the third and fourth years.

ENGLISH 7.

[2 yr. hrs.

The Bible as Literature. A study of the Old Testament in English. Besides the careful consideration of selected passages of Biblical narrative, poetry, prophecy, and wisdom literature in the King James version, there is collateral reading to give historical background and show the treatment of Biblical themes in English literature.

Miss SLEEPER.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 9.

[2 yr. hrs.

Studies in Modern Drama. A number of plays by modern American, British, and continental authors are analyzed, and the more important tendencies in dramatic writing since Ibsen are discussed.

Miss Dodge.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 10.

[2 yr. hrs.

Practical Criticism. During the first half, a study of elementary aesthetic principles, as these apply to all of the arts; during the second, the study and practice of literary criticism.

Mr. Gay.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 11.

[2 yr. hrs.

Early English Literature. A rapid survey of literature in England from the eighth to the fifteenth centuries, with attention to the rudiments of Old English. Selections from such works as *The Anglo-Saxon Chronicle*, the Venerable Bede, *The Battle of Maldon*, *Beowulf*, *Havelok the Dane*, and *Layamon's Brut*, as well as specimens of Chaucer and *Piers Plowman*, are read in the original.

Mr. Sypher.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 12.

[2 yr. hrs.

Types of Drama. Lectures, reading, and reports. A study of dramatic structure and methods of stage representation in the principal national dramas from the ancient Greek to the end of the nineteenth century, including Ibsen.

Mr. Gay.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 14.

[2 yr. hrs.

Chaucer, Milton, Pope, Wordsworth, Shelley, Browning. The aim of the course is to provide an introduction to great expressions of the human spirit in great periods of literature. Each poet is discussed

in relation to his age and with respect to his contribution to our racial culture.

Miss HOWE.

An elective for students in the third and fourth years.

Two hours a week.

[ENGLISH 19.

[2 yr. hrs.

Present-day Poets, British and American. Discussions, reports, and collateral reading.

An elective for students in the third and fourth years.

Two hours a week.

Not given in 1934-35.]

ENGLISH 22.

[2 yr. hrs.

Examples of Great Literary Types. Selected examples of the novel, short story, drama, essay, epic, and lyric poem are read and discussed, with attention to the value and characteristics of each type.

Mr. SYPHER.

Open only to first-year students.

Given during the second half.

ENGLISH 23.

[2 yr. hrs.

Composition. Reading, discussions, practice, and personal conferences. The main object of the course is to afford practice in business correspondence and in the writing of reports dealing with problems which are likely to arise in secretarial work.

Mr. BUSH.

Two hours a week.

ENGLISH 26.

[2 yr. hrs.

Shakespeare. An introduction to his complete works and to the theatre and stage of his time. The plays are, however, treated as great literature to be comprehended and enjoyed by reader and spectator.

Miss HOLBROOK.

An elective for students who have completed *English 1*, or the equivalent. Sophomores intending to elect *English 9* or *12* are strongly advised to elect *English 26*.

Two hours a week.

ENGLISH 28.

[2 yr. hrs.

Epic and Romance. A review of the types of great epics and romances (such as Homer, Dante, *The Volsunga Saga*, *The Song of Roland*, the Arthurian romances, and Spenser), with attention to

cultural, social, and national backgrounds and to the modern uses of traditional material.

Mr. SYPHER.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 30.

[2 yr. hrs.

Journalistic Fundamentals. A practical study of the newspaper in all its phases. Elementary practice in reporting, editing, editorial and feature writing, makeup. A course designed both for those contemplating a journalistic career and for those planning to enter one of the many vocations in which knowledge of newspaper practices and of publicity methods will prove an invaluable asset.

Mr. RATCLIFFE.

An elective for students in the third and fourth years.

Two hours a week.

ENGLISH 31.

[2 yr. hrs.

Advanced Composition. Various kinds of writing, practical and creative, other than the purely journalistic. The instruction is largely individual, each student cultivating the types that interest her. The work in class includes the reading, discussion, and criticism of papers written by the members. Considerable attention is paid to the elements of composition,—the word, the phrase, and the sentence,—advanced problems and exercises being assigned, in order to help the student to gain flexibility and versatility of style.

Mr. GAY.

An elective for students in the third and fourth years. The number of students is limited to fifteen.

Two hours a week.

ENGLISH 32.

[2 yr. hrs.

Manuscript and Proof. A technical course in the preparation of manuscripts for the press. A study of the best form and style followed by editors, publishers, and printers. The course includes such subjects as proofreading, editing, forwarding of matter through the press, copyright and copyright law, literary contracts, typography, and book layout and assembling.

Miss SUTHERLAND.

Two hours a week.

ENGLISH 33.

[2 yr. hrs.

Use of a Library. This course gives instruction in the bibliographic features of books, essential for appreciation of book descriptions in

library catalogues and bibliographies; and practice in the use of library catalogues. Methods of utilizing library facilities, and of finding material through indexes, handbooks, and other convenient ready reference aids are studied and practiced.

Miss DONNELLY, Mrs. BRACKETT.

Two hours a week.

ENGLISH 34.

[2 yr. hrs.

Book Publishing and Magazine Journalism. The work of the first half is intended to give students a general knowledge of the technique of book publishing and to fit them for work in publishing houses. Special attention is paid to editorial and advertising work, including the writing of editorial reports, correspondence with authors, preparation of advertisements, book jackets, posters, circulars, and publicity. Work done by the students is compared in class to similar material actually prepared in publishing houses. The course also touches on such supplementary publishing activities as book clubs, sales of serial material and motion picture rights, and the manufacture of books.

During the second half the course deals with magazine journalism and is designed to introduce students to the work of the editorial and business offices of periodicals. After a comprehensive survey of the magazine field, the course covers staff organization, office procedure, typographical technique, layout, format, editorial policy, and the work of the circulation and advertising offices. Both lectures and exercises are included.

Mr. LINSCOTT, Mr. KILLIAN.

Two hours a week.

HISTORY, GOVERNMENT, AND SOCIOLOGY

HISTORY 1.

[4 yr. hrs.

History of European Civilization since the Middle Ages. The major part of the class work consists of discussions based on the use of text-books and collateral reading. There are occasional lectures, map exercises, and individual conferences. The course aims to give the student a training in reading and note taking, the principles of historical reasoning, and an appreciation of the main factors in European culture and institutions from the close of the Middle Ages to the present time.

Mr. VARRELL, Mr. STEIGER, Mr. TRYON, Mr. PALMER, Mr. RANKIN.

HISTORY 2.

[4 yr. hrs.]

Modern History since 1870. Lectures, discussions, reports, and conferences. The course deals mainly with the history of the European states, their social, constitutional, and political problems, the opening of the Orient, economic imperialism, the Great War, and post-war developments.

Mr. VARRELL.

HISTORY 3.

[4 yr. hrs.]

History of American Civilization. The course covers the period from the earliest discoveries to the present time, emphasizing the institutional and political development, the growth of democracy, industrialism, and the influence of the frontier. In addition to the class work, which is based upon lectures and discussion, there are reports on outside reading in standard works of history and biography.

Mr. TRYON.

An elective for students who have had *History 1*, or the equivalent.

HISTORY 4.

[2 yr. hrs.]

Aspects of Citizenship. The course is designed to introduce the student to some of the most important political and social problems of the present day. Outside reading in current magazines and newspapers supplements the textbooks.

Mr. PALMER.

Open only to first-year students.

Given during the second half.

HISTORY 5.

[2 yr. hrs.]

Social and Intellectual History of the United States. The course deals with the everyday life of the people in its economic, social, artistic, and intellectual phases in an effort to explain the origin and the means through which contemporary characteristics have developed. Outside reading and individual studies of specific subjects supplement lectures and class discussions.

Mr. TRYON.

Two hours a week.

[HISTORY 6.]

[2 yr. hrs.]

Social and Intellectual History of Modern Europe. A study of the social, economic, and especially the cultural development of western Europe since the Renaissance. This course aims to give the student freedom to investigate phases of modern life in which she may be especially interested.

Two hours a week.

Not given in 1934-35.]

HISTORY 7.

[2 yr. hrs.

History of England since 1485. A study of the rise of a backward agricultural nation to the position of world power, involving revolutionary changes in its social, economic, and political structure.

Mr. RANKIN.

Two hours a week.

GOVERNMENT 1.

[2 yr. hrs.

The Problem of Government. Lectures, outside reading, and class discussion. The course aims to acquaint the student briefly with the principles of political science, the historical development of government in the United States, and the practical problems of citizenship.

Mr. VARRELL.

Two hours a week.

SOCIOLOGY 1.

[2 yr. hrs.

An introductory course in social theory and descriptive sociology. Discussions of the problems of social relations—domestic, political, religious and industrial.

Mr. STEIGER.

Two hours a week.

SOCIOLOGY 2.

[1½ yr. hrs.

The origin and present importance of such social institutions as the family, the state, the church, and the industrial system, with special emphasis on those which are now subject to attack or modification.

Mr. STEIGER.

Two hours a week. January to June.

HOUSEHOLD ECONOMICS

CLOTHING 1.

[2½ yr. hrs.

Elementary Garment Making. Instruction is provided in the use of the sewing machine and its labor-saving attachments; in the interpretation and use of commercial patterns; and in garment construction as applied to underwear, simple dresses, and children's clothing. Choice of patterns and material are made with consideration of the needs and ability of the individual.

Each student takes *Clothing 5* for one third to complete the year.

Mrs. ABBOTT, Miss DAVIS.

One lecture and three laboratory exercises (total, seven hours) a week for two thirds.

CLOTHING 2.

[4 yr. hrs.

Costume Design and Dressmaking. This course considers costume design through the handling of materials, fashion illustrations, and the making of garments rather than through the technique of sketching. Time is spent in a study of line and color in relation to different types of individuals, the choice of garments suitable for various occasions such as school, afternoon, and evening wear, with appropriate accessories, and an application of these principles to members of the class. Silk and woolen garments are made from commercial patterns with such adaptations and modifications as are necessary to suit the individual.

Miss DAVIS.

Open to students who have completed *Clothing 1, 5 and Design 1.*
One lecture and three laboratory exercises (total, seven hours) a week.

CLOTHING 3.

[2½ yr. hrs.

Costume Draping and Designing. This course includes the designing from plain drafted patterns of various types of blouses, skirts, and dresses; and draping or modeling on the dress form. Special consideration is given to the study of lines and adaptation of design to various types of figures. For this work all garments are made from inexpensive muslin, the cost of which is covered by the fee. The course continues with the study of garment construction, with emphasis on the making and pressing of garments, using woolen and silk materials.

In choice of designs and materials for these garments, students are expected to apply principles gained in *Design 2* and *Clothing 1, 5.*

Miss DAVIS.

Open only to students who have completed *Clothing 1, 5 and Design 2.*

One lecture and three laboratory exercises (total, seven hours) a week during the first and second thirds.

CLOTHING 4.

[1½ yr. hrs.

Millinery. This course is planned to meet the needs of students who are preparing to teach. It provides instruction in the making and covering of frames, and the fitting and trimming of hats, with a study of the methods and materials used in the trade. Time is also given to the renovation of hats.

Mrs. ABBOTT, Miss DAVIS.

One lecture and three laboratory exercises (total, seven hours) a week during the last third.

CLOTHING 5.

[1½ yr. hrs.]

Textiles. This course includes a study of the important textile fibres, manufacturing processes as related to the appearance, use, and durability of a fabric, and fabric analysis.

Mrs. ABBOTT.

One lecture and three laboratory exercises (total, seven hours) a week during the first third. Repeated in the second and last thirds.

CLOTHING 6.

[2 yr. hrs.]

Selection. The course includes the discussion of the elements involved in selection, and economic factors influencing prices of garments and textile fabrics for clothing and house furnishing. Budgets and accounts in relation to clothing are considered.

Mrs. ABBOTT.

Open only to students who have completed *Clothing 5.*

Two hours a week.

DESIGN 1.

[2 yr. hrs.]

A fundamental appreciation course as applied to systematic arrangements of order and beauty in design. Lectures, readings, lantern slides, and collections of household materials furnish illustrations.

Miss GARDNER.

Given during the first half.

DESIGN 2.

[4 yr. hrs.]

This course continues the study of art principles begun in *Design 1*, and presents historic design as a basis for developing designs adapted to contemporary costume, accessories, and fabrics. It includes a consideration of the fundamental principles of costume design, and of historic costume with its application to modern dress. A study of line and color with reference to different types of individuals is made. The laboratory time is devoted to the fundamentals of technique, rendering, and costume sketching.

Miss GARDNER.

Open only to students who have completed *Design 1.*

Two lectures and two laboratory exercises (total, six hours) a week.

DESIGN 3.

[4 yr. hrs.]

The first third includes a study of the various types of American furniture, draperies, wall paper, pottery, and glass which developed in response to conditions of life in America from colonial times to the present.

During the second and last thirds consideration is given to the characteristics and influence of furnishings and accessories, from the Renaissance to the twentieth century, on succeeding periods, with case problems in the selection of interior ensembles for American homes of moderate income with special attention to color harmonies, and concrete applications of budget apportionments for a completely appointed house. Lantern slides, photographs, and exhibitions at the museums, furniture factories, and department stores furnish illustrative material.

Miss GARDNER.

Open to students who have completed *Design 1* and *2*.

Three laboratory exercises (total, six hours) a week.

DIETETICS 1.

[2 yr. hrs.

Principles of Nutrition. This course presents the application of the fundamental principles of human nutrition under varying physiological and economic conditions.

Miss BLOOD, Miss HORD.

Three class hours and one laboratory exercise (total, five hours) a week during the first half. Repeated in the second half.

DIETETICS 2.

[2 yr. hrs.

Dietetics in Social Service. This course aims to give an insight into the dietetic problems in social service, and also to give experience in the application of the principles of dietetics through clinic work and family visiting.

Miss WHITE.

Open to students who have completed *Dietetics 1*.

Students taking this course are expected to elect *Dietetics 3* and *Social Economy 2*. The number of students is limited to fifteen.

One lecture and field work (total, five hours) each week.

DIETETICS 3.

[1 yr. hr.

Reports on the current literature of dietetics and related sciences.

Miss BLOOD.

Open to students who have completed *Dietetics 1*.

Two hours a week during the first half.

DIETETICS 4.

[1 yr. hr.

A brief non-technical treatment of the fundamental principles of human nutrition, with special application to the problems of the public health nurse.

Miss BLOOD.

Open to students whose preparation in the basic sciences and nutrition is limited.

Two hours a week during the second half.

DIETETICS 5.

[$\frac{2}{3}$ yr. hr.

A course similar in scope to *Dietetics 4*, but planned for graduate nurses.

Miss BLOOD.

Two hours a week. March to June.

DIETETICS 6.

[$\frac{2}{3}$ yr. hr.

Current Problems in Nutrition. A seminar on current literature on nutrition.

Miss BLOOD.

Open to students who have had satisfactory preparation in chemistry and physiology.

Two hours a week. January to March.

DIETETICS 8.

[1 yr. hr.

A brief non-technical treatment of the fundamental principles of human nutrition, with special application to the problems of the student in physical education.

Mrs. BURKE.

Open to students whose preparation in the basic sciences and nutrition is limited.

Two hours a week during the second half.

DIETETICS B.

A brief non-technical treatment of the fundamental principles of human nutrition for pupil nurses.

Miss BLOOD, Miss HORD.

Two hours a week during the first half. Repeated in the second half.

FOODS 1.

[4 yr. hrs.

Principles of Cookery and Marketing. Lectures, recitations, and practice. This course presents the principles underlying the preparation of different types of foods. Marketing problems are discussed by special lecturers. The course provides practice in cooking in family quantities. Special divisions are arranged for students who have had cooking in high school.

Miss Dow, Miss HORD, Miss MACGREGORY, Miss KNIGHT.

One lecture and three laboratory exercises (total, seven hours) a week.

FOODS 3.

[2 yr. hrs.]

Meal Service. This course consists of the preparation of luncheons for paying faculty guests. It includes conferences, reading, and some laboratory exercises which review and extend the principles of food preparation.

Miss FISHER, Miss HORD.

Open only to students who have completed *Foods 1.*

Two lectures and two laboratory exercises (total, ten hours) a week during the first half. Repeated in the second half.

FOODS 4.

Experimental Cookery. A course offered for individual students approved in advance by the head of the department.

Miss Dow and members of the staff.

The hours and credits are specifically determined for each student.

FOODS 5.

[1 yr. hr.]

A laboratory course in elementary food preparation, to be taken by students in *Dietetics 4, 5 and 6* who have not had equivalent work.

Miss FISHER.

Two laboratory exercises (total, four hours) a week during the second half.

FOODS B.

An elementary course in cookery for pupil nurses.

Miss HORD, Miss FISHER, Miss KNIGHT.

One lecture or recitation and one laboratory exercise (total, three hours) a week during the first half. Repeated in the second half.

[HOUSEHOLD MANAGEMENT 1.

Consideration of the household as a business and discussion of the relation of the various members of the household to the enterprise of home making.

Not given in 1934-35. To be given for juniors in 1935-36.]

HOUSEHOLD MANAGEMENT 2.

[2 yr. hrs.]

This course is based on residence in Pilgrim House, with responsibility for planning and execution of all the work, including the marketing and bookkeeping. It includes conferences, reading, and some laboratory exercises which review and extend the principles of food preparation.

Miss MACGREGORY.

Repeated each half.

HOUSEHOLD MANAGEMENT 3.

[1 yr. hr.]

Income Management. This course is designed to teach the value of money and the responsibilities connected with its possession. Conscious standards of living as a control of expense, the recognition of true values, and the technique of budgeting are presented through the study of actual problems of individual and family finance.

Miss DONHAM.

Two hours a week during the first half.

INSTITUTIONAL MANAGEMENT 1.

[4 yr. hrs.]

This course aims to give the student an insight into the problems of institutional administration with special emphasis on lunchroom management. It is a composite course made up of the following units:

(a) Field work under Mrs. Dodge and Miss McCarthy in the various food departments of the Women's Educational and Industrial Union, coöperating suburban school cafeterias and the Simmons College lunchroom, together with conferences and reports on the field work.

(b) Lectures and discussions by Mrs. Dodge and by special lecturers covering the problems of organization, administration, employment management, equipment, plant location, and layout.

(c) Experience in quantity cookery together with discussion of quantity food buying in the Simmons College lunchroom.

(d) Numerous related trips made for the purpose of observing food production, equipment, and institutional management.

Students are required to eat in representative restaurants from time to time to develop judgment and analytical ability. Twenty-five dollars should be allowed to cover this item.

Mrs. DODGE, Miss McCARTHY, Miss —.

Students taking this course are expected to elect *Accounts 5*. The number of students is limited to forty.

Three lectures and field work each week (total, seven hours).

LIBRARY SCIENCE

LIBRARY SCIENCE 1.

[1 yr. hr.]

This prevocational library course is offered to aid students to use libraries and library tools in their academic courses, and to give them some vocational guidance and library field work before they enter the technical library science senior program.

Miss DONNELLY, and staff.

One class hour and two laboratory or reading hours a week.

In the summer of 1934 two weeks of field work will be spent in a public library.

ADMINISTRATION 1.

[4 yr. hrs.*]

This course traces the history of library development, with special emphasis on American library ideals and accomplishment. Administrative problems of human relations, of publicity and service are discussed, as well as those of finance and organization.

Special topics of importance included are the work of the lending department, and the library building and its equipment. The acquisition and treatment of particular types of material, as pictures, periodicals, and government publications, are discussed, and the order routine demonstrated. Students are given a slight acquaintance with the allied arts of printing and binding.

Miss DONNELLY, Miss BLUNT, and staff.

ADMINISTRATION 2.

[1½ yr. hrs.]

Required, for students who elect the course in School Libraries, as a substitute for *Administration 1* from December to June.

It presents in a more condensed form the essential topics considered in *Administration 1*, and discusses modifications suitable for school libraries.

Miss DONNELLY.

Two class hours a week during the second and last thirds.

BIBLIOGRAPHY 2.

[1½ yr. hrs.]

Continues the Bibliography begun in *Cataloguing 1*. It includes foreign bibliography and some subject bibliography.

Miss KAUFFMANN.

Two hours a week during the second and last thirds.

BOOK SELECTION 1.

[2½ yr. hrs.]

Lectures, discussion, required reading, and practical problems. A general course on the principles and methods of selecting and evaluating books for various types of libraries and readers. During the first third, half of the class periods are given to the consideration of children's literature, its selection and use.

Miss BROTHERTON.

Four hours a week the first third. Two hours a week the second and last thirds.

* Credit of 1½ yr. hrs. is allowed for the first third of this course for those students who substitute *Administration 2* for it during the second and last thirds.

CATALOGUING, BIBLIOGRAPHY 1.

[2½ yr. hrs.]

Lectures, reading, observation of catalogues, cataloguing of books, and discussion. A study is made of the application of cataloguing principles and technique to the entry of books in the dictionary card catalogue. Instruction is given in the making of entries and references suited equally to catalogues consisting wholly of typed cards and to those consisting largely of Library of Congress printed cards; also in the arranging, guiding, and labeling of the public catalogue; and in the constructing and maintaining of the official records of a catalogue department. There is a brief introduction to classed cataloguing. American and English national bibliography is included during the first third.

Miss HYDE, Miss KAUFFMANN, Miss DAVIS.

Cataloguing: Three lectures and four laboratory hours a week during the first third. Two class hours and three laboratory hours a week during the second and last thirds.

Bibliography: One class hour during the first third.

CLASSIFICATION 1.

[2 yr. hrs.]

The principles and methods of classification are studied, with special emphasis on book classification systems, particularly the Dewey Decimal and Library of Congress Classifications.

Miss DONNELLY.

Two class hours and two laboratory hours a week.

FIELD WORK.

Definite provision for observation and practical work is made

1. By assigning students to libraries for a fortnight in the spring of the senior or college graduate year;
2. By visits to libraries, bookstores, etc., or other professional contacts;
3. By assigning the four-year group to libraries for a fortnight in the vacation before the senior year.

As the field work is linked up with all the technical library science courses, and the time for it is contributed from the other courses in varying proportions, no separate credit is given for it.

LIBRARY WORK WITH BOYS AND GIRLS AND STORY-TELLING 1.

[2½ yr. hrs.]

This course is planned to give definite preparation for work with young people in public or school libraries. It includes a study of books from the standpoint of presentation, value, use, and interest for different ages and groups.

Since story-telling has long proved one of the most effective methods of introducing literature to children, opportunity is given for the study of sources, selection, and adaptation of stories, and for practice in oral presentation.

Miss BROTHERTON.

Four hours a week during the second and last thirds.

HISTORY OF THE BOOK 1.

[1½ yr. hrs.

The evolution of the book is traced from ancient times to the present day. The Boston Public Library, the Widener Library, the Harvard museums, the Boston Museum of Fine Arts, and the libraries of Brown University furnish remarkable facilities for observation and study in this field.

Mr. HARASZTI.

Two hours a week during the second and last thirds.

REFERENCE 1.

[2 yr. hrs.

In this course are studied problems of the department which serves library patrons directly, through giving information and providing for study and research within the library. The traits and qualities called into play in workers in this department are investigated. Skill is acquired in the use of reference books and in the technical processes employed in reference and research departments.

Miss BLUNT.

Two hours a week.

SCHOOL LIBRARIES 1.

[1½ yr. hrs.

Lectures, problems, and required reading on the organization, equipment, and administration of school libraries. The course considers the problems of the high school library in particular, but gives some attention to elementary and normal school libraries. College libraries are not within its scope.

Miss BROTHERTON.

Two hours a week during the second and last thirds.

LIBRARY TYPEWRITING: TYPEWRITING 6.

For a description of the course, see page 134.

MODERN LANGUAGES

Students are not allowed, ordinarily, to begin two foreign languages in the same year.

FRENCH 1.

[4 yr. hrs.

Grammar, translation, dictation, and sight reading. This course is

for beginners in French, and for students who have not offered the equivalent at entrance.

Mr. GOODELL.

FRENCH 2.

[4 yr. hrs.

Drill in grammar, reading, dictation, composition, and simple oral French. Practice in summarizing.

Miss BOWLER.

Open to students who have completed *French 1*, or who are credited with two years of French for entrance.

FRENCH 3.

[4 yr. hrs.

Primarily for students in the School of Secretarial Studies. Composition, dictation, business forms, letter writing, practice in summarizing, oral practice, rapid reading of representative works of French literature.

Mrs. MOTTET.

Open to students who have completed *French 2*, or who are credited with three years of French for entrance.

FRENCH 4.

[4 yr. hrs.

Primarily for students in the School of Library Science. General survey of French literature through the nineteenth century. Rapid reading of representative authors; lectures, reports, discussions.

Miss BOWLER.

Open to students who have completed *French 2*, or who are credited with three years of French for entrance.

FRENCH 5.

[2 yr. hrs.

Practice in reading modern literature which illustrates French life, thought and culture, and in oral and written French. Lectures, discussions, reports.

Mrs. MOTTET.

Open to students who have completed *French 3*, or the equivalent. *Two hours a week.*

FRENCH 6.

[2 yr. hrs.

Rapid reading of contemporary fiction, poetry, drama, essays and criticism; lectures, discussions, reports.

Miss BOWLER.

Open to students who have completed *French 4*, or the equivalent. *Two hours a week.*

GERMAN 1. [4 yr. hrs.

Grammar, translation, composition, dictation, and reading at sight. For beginners in German, and for students who have not offered the equivalent at entrance.

Mrs. COFFMAN, Miss FISHTINE, Mr. KLEIN.

GERMAN 2. [4 yr. hrs.

Drill in grammar, reading, dictation, and composition; lectures, discussions, reports.

Mr. KLEIN.

Open to students who have completed *German 1*, or who are credited with two years of German for entrance.

GERMAN 3. [4 yr. hrs.

Introduction to the reading of scientific German; brief review of grammar; study of elementary and popular scientific treatises; outside reading and written reports.

Mrs. COFFMAN.

Open to students who have completed *German 1*, or who are credited with two years of German for entrance.

GERMAN 4. [2 yr. hrs.

German Literature of the Classical Period of the Eighteenth Century. Reading of representative works of Lessing, Goethe, and Schiller, keeping in mind the history and social life of the period. Lectures, conferences, reports. Correspondence with students in Germany.

Mrs. COFFMAN.

Open to students who have completed *German 2*, or the equivalent.

This course may be taken in connection with *German 5*.

Two hours a week.

GERMAN 5. [2 yr. hrs.

Contemporary German Literature, beginning with the free theatre movement. The reading includes selections from Hauptmann, Sudermann, Fulda, Rosegger, Ebner-Eschenbach, Schnitzler, Wassermann, Thomas Mann, and the leading poets, studied with relation to social, economic, and cultural forces. Lectures, discussions, reports of reading, and correspondence.

Mrs. COFFMAN.

Open to students who have completed *German 2*, or the equivalent.

This course may be taken in connection with *German 4*.

Two hours a week.

[ITALIAN 1.

Italian Grammar and Modern Prose. Italian grammar, composition, and reading. Lectures on the history of Italian literature, and collateral reading. This course enables students to read modern Italian, and gives a general idea of the main currents of Italian literary history from its beginnings to the present day. The course is intended primarily for students in the Schools of Library Science and Social Work.

Not given in 1934-35.]

SPANISH 1.

[4 yr. hrs.

Spanish Grammar, Modern Prose, and Prose Composition. Dictation, sight reading, reading of assigned texts.

Mr. GOODELL.

SPANISH 2.

[4 yr. hrs.

Grammar review, reading of assigned texts and current Spanish publications, sight reading, composition, dictation.

Miss FISHTINE.

An elective for students who have completed *Spanish 1*, or who are credited with two years of Spanish for entrance.

[SPANISH 3.

[2 yr. hrs.

An advanced course in rapid reading of works by Central and South American authors. Lectures on Central and South American geography, government, literature and so forth. Written reports on outside reading.

An elective for students who have completed *Spanish 2*, or who are credited with three years of Spanish for entrance.

This course may be taken in connection with *Spanish 4*.

Two hours a week.

Not given in 1934-35.]

SPANISH 4.

[2 yr. hrs.

A course dealing with political and social changes in Spanish life, as illustrated by the literature of various periods. Especial consideration is given to recent and contemporary currents of thought in Spain.

Miss FISHTINE.

Open to students who have completed *Spanish 2*, or the equivalent.

This course may be taken in connection with *Spanish 3*.

Two hours a week.

PHYSICAL TRAINING

Two hours of physical exercise are required each week of all first-year students who are not excused by a physician. Dancing, basketball, fencing, archery, hockey, tennis, and regular gymnastic exercises are offered. Each student entering the course in physical training is required to present a health certificate showing that she has no defect in heart or lungs, and to pass a physical examination.

Miss DIALL, Miss LEACH.

Two exercises a week throughout the year.

PHYSICS AND MATHEMATICS

PHYSICS 1.* [4 yr. hrs.

General Physics. The object of the course is to familiarize the student with the fundamental concepts and principles of physics, especially those which are illustrated in everyday life and those which are important in various kinds of scientific work.

Mr. HYATT, Mr. HEMENWAY, Mr. STEARNS, Mr. PEARSON, Mr. JONES, Mrs. GAY.

One lecture, two recitations, and one laboratory exercise (total, five hours) a week.

PHYSICS 2. [4 yr. hrs.

General Physics. A more detailed and analytical study of the fundamental principles of physics than in *Physics 1.*

Mr. PEARSON.

Open without restriction only to students in the School of General Science who have completed *Physics 1* and *Mathematics 1*, with grades not lower than C.

Three class hours and one laboratory exercise (total, six hours) a week.

PHYSICS 3. [4 yr. hrs.

Advanced Course in Light and Electricity. The work in light includes wave motion, refraction, interference, diffraction, spectrometry, polarization, and photometry. The work in electricity includes direct and alternating current theory and practice.

Mr. HYATT.

Open only to students who have completed *Physics 2* with a grade not lower than C, and who either have taken or are taking *Mathematics 3.*

Three class hours and one laboratory exercise (total, six hours) a week.

* Special divisions are arranged for students in Household Economics and also in General Science.

[PHYSICS 4.

[4 yr. hrs.

Heat. The principles of thermodynamics, with laboratory measurements in thermal expansion, conduction, radiation, and calorimetry.

Hours to be assigned.

Not given in 1934-35.]

PHYSICS 5.

[2 yr. hrs.

X-Ray Technology. The course aims to acquaint the students with a knowledge of the nature and practical applications of X-rays in the field of roentgenography. Lectures, demonstrations, laboratory work, and visits to X-ray laboratories.

Mr. STEARNS.

Open to students who have completed *Physics 2.*

One class hour and one laboratory exercise (total, four hours) a week.

PHYSICS 6.

[2 yr. hrs.

Introduction to Modern Physics. Topics include electromagnetic theory, radiation, nature and properties of ions and electrons, nature and origin of spectra, radioactivity.

Mr. HYATT.

Open without restriction only to students who have completed *Physics 3* with a grade not lower than C.

Two class hours a week.

PHYSICS 7.

[2 yr. hrs.

Advanced Laboratory Practice. The work parallels to some extent that of *Physics 6.* Topics to be assigned include measurement of high temperatures, photography, spectroscopy, photo-electricity, vacuum tubes, and vacuum tube circuits.

Mr. HYATT.

Open to students who have completed *Physics 3* with a grade not lower than C.

Three laboratory hours a week.

MATHEMATICS 1.

[4 yr. hrs.

Algebra, Plane Trigonometry, and Analytic Geometry. Each subject is taken up separately. The treatment of logarithms is emphasized.

Mr. HEMENWAY.

A knowledge of elementary algebra and plane geometry is essential for admission to this course.

[MATHEMATICS 2.

[2 yr. hrs.

Mathematics of Finance. A mathematical treatment, supplemented by practical examples and assigned exercises, of such topics as simple

and compound interest and discount, annuities certain, bond values, amortization of debts, sinking funds, depreciation, building and loan associations, life annuities, and life insurance.

Open to students who have completed *Mathematics 1*, or the equivalent.

Two hours a week.

Not given in 1934-35.]

MATHEMATICS 3.

[4 yr. hrs.

Introduction to the Calculus. The fundamental principles of both differential and integral calculus are studied, also the theory of computations. The differential calculus is applied to problems involving maxima, minima, and rates. The integral calculus is applied to problems involving reversal of rates, computation of areas, volumes, and lengths of curves.

Mr. HEMENWAY.

Open to students who have completed *Mathematics 1*, or the equivalent.

[MATHEMATICS 4.

[4 yr. hrs.

Calculus and Elementary Differential Equations. This course includes such topics as complex numbers, the evaluation of integrals, double and triple integration, partial derivatives, and elementary differential equations. Applications from the sciences are studied, in addition to those of geometry.

Open to students who have taken *Mathematics 3*, or the equivalent, with a grade not lower than C.

Not given in 1934-35.]

PSYCHOLOGY, PHILOSOPHY, AND EDUCATION

EDUCATION 1.

[2 yr. hrs.

Principles of Teaching. An introductory course in teaching. It deals with such topics as the learner, the learning process, methods of classroom procedure, and tests and testing. It takes up both problems of classroom practice and the educational principles which guide the solution of such problems.

Mr. SEYFERT.

Two hours a week.

An elective for students who have completed *Psychology 1* or *2*.

EDUCATION 2.

[2 yr. hrs.

History of Education. A study of world events and forces which have contributed to the shaping and directing of educational prog-

ress. Stress is placed upon a study of secondary education, its development, present organization, and the place of vocational education in that organization. Study of the textbook is supplemented by lectures, discussions, and collateral reading.

Miss ____.

Two hours a week.

EDUCATION 3.

[4 yr. hrs.]

Home Economics Education. This course gives opportunity for the study of progressive methods and for the application of principles of teaching through discussion of problems arising in connection with observation in public schools and practice teaching in social settlements and public schools.

Miss DOW, Mrs. ABBOTT, Miss KNIGHT.

Three class exercises and one teaching or observation exercise (total, seven hours) a week.

EDUCATION 4.

[2 yr. hrs.]

Commercial Teaching. Lectures, discussions and application. This course includes (a) an examination of the content of courses in shorthand, typewriting, and office methods, including a comparison of the principal textbooks; (b) a detailed study of the methods employed in teaching these subjects; (c) observation and practice in teaching.

Mr. ELDREDGE, Mrs. ADAMS, Miss JACOBS, Miss SWEENEY, Mrs. DICKINSON.

Two hours a week.

EDUCATION 5.

[2 yr. hrs.]

Commercial Teaching. Lectures, discussions and application. This course includes (a) a study of appropriate commercial curricula for junior and senior high schools, with emphasis on the discussion of vocational aspects of business training; (b) an examination of the content of courses in bookkeeping, penmanship, and arithmetic, including a comparison of the principal textbooks; (c) a detailed study of the methods employed in teaching these subjects; (d) observation and practice in teaching.

Mr. TURNER, Miss WILKINSON, Miss JACOBS, Miss ENGLER.

Two hours a week.

EDUCATION 6.

[1 yr. hr.]

Methods of Food Demonstration. A course devoted to a consideration of the special problems involved in demonstrating and speaking to public audiences on food topics.

Miss DOW.

The number of students is limited to eighteen.

Three hours a week during the second half.

EDUCATION 8.

[$1\frac{1}{3}$ yr. hrs.

Principles of Education and Methods of Teaching. A study of fundamental processes in learning and teaching and special phases of teaching in the field of public health nursing.

Miss ROOF.

Two hours a week. January to June.

EDUCATION 9.

[2 yr. hrs.

Teaching of English. A study of principles, methods, and materials for the teaching of English in the high school, including observation and practice in certain schools in Boston and the vicinity. The work of the classroom consists partly of demonstration by the instructor and partly of experiment by the student in the presentation of literature and composition to pupils of high school and junior high school age.

Mr. GAY.

One class exercise and one teaching or observation exercise (total, five hours) a week.

PHILOSOPHY 1.

[2 yr. hrs.

Problems of Contemporary Philosophy. A course of analytical discussions on readings in contemporary philosophical criticism and philosophical reconstruction necessitated by advances in biological, physical, and mathematical sciences. The development of modern humanism and its implications is fully considered.

Mr. HARLEY.

Two hours a week.

PSYCHOLOGY 1.

[2 yr. hrs.

Introduction to General Psychology. Lectures and analytical discussions on the fundamental concepts and principles of the general field of human psychology with special emphasis on the sociological and humanistic implications of the facts considered. Collateral reading is required to supplement the text, lectures and discussions.

Mr. HARLEY, Mr. ____.

Two hours a week.

PSYCHOLOGY 2.

[2 yr. hrs.

Introduction to Educational Psychology. An introductory course in psychology, equal in scope to *Psychology 1*, designed especially for students who plan to elect courses in Education. Lectures and

analytical discussions of the fundamental concepts and principles of human psychology with especial reference to educational problems and practices.

Mr. ——.

Students who expect to elect *Education 1* should elect *Psychology 2* instead of *Psychology 1*.

Two hours a week.

PSYCHOLOGY 3.

[2 yr. hrs.

Genetic Psychology. Psychology of Childhood and Adolescence. Lectures, discussions, and classroom reports on the significant aspects of mental development in childhood and adolescence with particular reference to the practical demands of the broader child care and welfare movement. The educational and hygienic aspects of the subject are stressed. Extensive use is made of library resources, and direct observation of the behavior of individuals and groups is a requirement of the course.

Mr. HARLEY.

An elective for students who have completed *Psychology 1* or *2*. The number of students in a section is limited.

Two hours a week.

PSYCHOLOGY 4.

[1½ yr. hrs.

Psychology for Nurses. Lectures and analytical discussions on the fundamental concepts and principles of the general field of human psychology, with special emphasis on the sociological and psycho-therapeutic implications of the facts considered. The psychological background of public health instruction is stressed.

Mr. ——.

Two hours a week. January to June.

PSYCHOLOGY 5.

[2 yr. hrs.

The Psychology of Personality. An analytical study of the viewpoints and methods which have proved fruitful in the study of personality and its minor disturbances. The contributions of the various schools of psychological thought are studied, and considerable attention is paid to the quantitative studies of personality characteristics and factors by means of tests. The educational and hygienic aspects of the subjects are stressed.

Mr. HARLEY.

An elective for students who have completed *Psychology 1* or *2*. The number of students is limited to twenty-five.

Two hours a week.

PSYCHOLOGY 6.

[2 yr. hrs.

Educational Psychology. Educational Development in Childhood and Adolescence. Lectures, discussions, and classroom reports on the contributions of psychological thought to general educational theory and practice, with special emphasis on the educational organization essential to the complete mental development of the child. The processes of learning, the acquisition of skill, habit formation, emotional control, individual differences, special abilities and disabilities, grouping on the basis of mental and educational tests, educational incentives and objectives are discussed in detail.

Mr. _____.

An elective for students who have completed *Psychology 1 or 2.*
Two hours a week.

PUBLIC HEALTH NURSING

NURSING EDUCATION 2.

[1½ yr. hrs.

Comparative Nursing Practice. This course in the teaching of the nursing art includes an analysis of basic procedures with emphasis on underlying scientific principles. Some practice is given in evaluating typical procedure and in comparing methods of teaching.

Miss NORCROSS.

Two hours a week. January to June.

NURSING EDUCATION 3.

[1 yr. hr.

Ward Management. This course is arranged for head nurses and supervisors who are concerned directly with the practical management of hospital wards. It aims to acquaint the student with the general plan of hospital organization, the head nurse's relation to the various departments of the hospital, the organization of the ward itself, the care of its equipment, and the management and supervision of ward personnel.

Miss WOOD.

Two hours a week during the first half.

NURSING EDUCATION 4.

[1 yr. hr.

Ward Teaching. This course is planned for students who have already completed the course in Ward Management. The general educational program of the School of Nursing is discussed in order to show the place of the head nurse in that program. Special emphasis is placed on the opportunities for teaching within the ward, and the relationships between the head nurse and the student nurse assigned to her department.

Miss WOOD.

Two hours a week during the second half.

PUBLIC HEALTH NURSING 1.

[1½ yr. hrs.

This course deals with the development, methods, and technique of public health nursing, with emphasis upon its social and preventive aspects. A number of visits are made to health and social agencies.

Miss STIMSON, and special lecturers.

Open to students who are taking or have completed the required field work, and to others with the consent of the instructor.

Repeated.

PUBLIC HEALTH NURSING 2.

[4 yr. hrs.

The organization and administration of public health nursing services are studied in this course. Special attention is paid to public health nursing in relation to other forms of health work such as social and mental hygiene.

Miss STIMSON, Dr. ELKIND, Miss DONOHOE, and special lecturers.

Open to students who have completed *Public Health Nursing 1* and to others with the consent of the instructor.

Six hours a week. January to June.

PUBLIC HEALTH NURSING 4.

[2 yr. hrs.

This course deals with the work of federal, state and municipal health services and the application of medical knowledge to the control of preventable disease. Considerable time is devoted to the various aspects of the school health program, with particular reference to the work of the school nurse. Health education is stressed.

Dr. DIEZ, Miss HITCHCOCK, and special lecturers.

Three hours a week. January to June.

PUBLIC HEALTH NURSING 5.

[1½ yr. hr.

A course designed for head nurses and supervisors in which a discussion of the preventive aspects of nursing develops means for incorporating them in the clinical experiences of students in hospitals, out-patient departments, and community nursing services.

Miss STIMSON, Dr. DIEZ, and special lecturers.

Two hours a week. January to June.

PUBLIC HEALTH NURSING FIELD WORK.

[2 yr. hrs.

Thirty-five to forty hours weekly of supervised practice in family health work, divided into three periods in which two months are spent in a generalized public health nursing program, one month

in child welfare and tuberculosis work, and one month in family case work.

Given during the first half. Repeated in the second half.

Hours to be arranged, minimum 560.

HEAD NURSING FIELD WORK.

[2 yr. hrs.

Head nursing practice under supervision in one of the hospitals affiliated with the College.

Hours to be arranged, minimum 350.

SECRETARIAL STUDIES

ACCOUNTS 1.

[4 yr. hrs.

Fundamentals of Accounting. The course begins with a study of the principles of double entry bookkeeping and practices the application of those principles in writing up the books of merchandising firms. Then follow features of particular value to secretaries, e.g.: methods of accounting required for various forms of investment—stocks, bonds, real estate—both as to capital and as to revenue; extended practice in computation of the Federal Income Tax as applied to individuals; the accounts of professional men; study and practice in approved forms of the financial reports of schools, societies, and charitable organizations.

One exercise each week is devoted to the mathematics of accounting, especially interest and discount, simple and compound; valuation of bonds; the use of logarithms; foreign exchange; annuities; sinking funds.

Mr. TURNER, Miss ENGLER.

ACCOUNTS 2.

[2 yr. hrs.

Accounting Principles. Studies in some advanced phases of accounting. Reading, discussion, and problems in such matters as corporation accounts; the evaluation of balance sheet accounts; capital and income; surplus; depreciation and reserves; the interpretation of statements (based on actual cases); realization and liquidation; causes of change in the rate of profit; accounts of executors or administrators.

Mr. TURNER.

Two hours a week.

ACCOUNTS 3.

[2 yr. hrs.

Accounting Principles. Practical questions and problems. Some of the subjects considered are: analysis of financial statements; partner-

ship and corporation problems; source and application of new funds; cost accounts; consolidated statements; consignments; miscellaneous problems in such things as adjustments for fire loss and insurance, and for suspense items.

Miss ENGLER.

Two hours a week.

ACCOUNTS 4.

[2 yr. hrs.

The course is intended to give (a) facility in the technique of book-keeping and (b) ability to teach bookkeeping classes in secondary schools. The basis of the course is laboratory work in keeping books of a commercial character; progressing from single entry to double entry, and from the accounts of single proprietorship, through the more detailed records of a partnership, to those of a manufacturing corporation using a voucher system.

Mr. TURNER.

Two exercises (total, four hours) a week.

ACCOUNTS 5.

[2 yr. hrs.

Institutional Accounts. Lectures and exercises. A course in the elements of bookkeeping and of business practice as applied to the accounts of lunchrooms, tea rooms, college dormitories and institutions of a similar type. Practice is given in the making of statements, the analysis of figures, and the designing of books of record appropriate for these types of institutions.

Miss ENGLER.

Two hours a week.

ADVERTISING 1.

[2 yr. hrs.

Lectures, discussions, and practice. The course presents the principles which underlie the various types of advertising. The topics studied include the functions of advertising, an analysis of products, a study of the channels of trade, the psychology of advertising, layout, the preparation of copy; the use of illustrations, headlines, and display type. Specific problems and illustrations are given throughout the course. Each student makes a loose-leaf notebook of the daily examples and constructively criticized reports.

Mr. ELDRIDGE.

Two hours a week.

BUSINESS ORGANIZATION 1.

[2 yr. hrs.

A general outline of the principles underlying the organization and management of business, including the discussion, from the stand-

point of business, of such subjects as the following: the relation of business to the sciences, scientific methods, forms of business enterprise, the financing of corporations, scientific management, types of management, wage systems, functions of credit, problems of exchange, purchasing, selling, advertising.

Mr. ELDRIDGE.

Two hours a week.

BUSINESS PROBLEMS 1.

[2 yr. hrs.

An intensive study of problems arising in business, particularly those of finance, selling, purchasing, advertising, personnel or office practice. A number of actual illustrative cases are carefully examined and an attempt is made to reach the best solution in each case. Each student is expected to make a special study and report on at least one topic. The course should be of value in enabling the student to make definite application of the principles studied in *Business Organization 1.*

Mr. ELDRIDGE.

Two hours a week.

COMMERCE 1.

[2 yr. hrs.

A consideration of the elements of industry, commerce, and human geography, and of the dependence of products and trade upon climate and location. The resources and trade productions of foreign countries are studied with particular reference to their effect upon the commerce of the United States. Special research on assigned topics.

Mr. TURNER.

Two hours a week.

COMMERCIAL LAW 1.

[2 yr. hrs.

Discussions based on the study of legal principles and daily practice in the application of these principles to selected cases. The primary aims of the course are to help the student acquire a knowledge of those fundamental legal principles which have high personal-use values, as well as of those principles which apply to ordinary business situations; to insure an understanding of the essential ideas of social justice on which all law is based; and to develop a respect for, and an active interest in, the orderly processes of law as a means of promoting social welfare. Contracts, sales, negotiable paper, common carriers, agency, insurance, property, partnership, and corporations are among the subjects considered.

Miss O'BRIEN.

Two hours a week.

COMMERCIAL LAW 2.

[1 yr. hr.]

A brief course covering, in general, the same topics taken in *Commercial Law 1.*

Miss O'BRIEN.

Two hours a week during the first half.

FILING 1.

[1 yr. hr.]

A study of the basic principles of indexing and filing. Actual filing practice work, supplemented by lectures and discussions on the organization of file departments, charge systems, follow-up systems, and transfer methods.

Miss SWEENEY.

Two hours a week during the first half. Repeated in the second half.

OFFICE MACHINE PRACTICE 1.

[1 yr. hr.]

A laboratory course devoted to practice work on the most commonly used office machines. Sufficient practice is given in operating each machine to insure an understanding of its use in office work.

Miss SWEENEY, Miss FORD.

Four practice periods a week during the first half. Repeated in the second half.

PENMANSHIP A.

A course in the principles of business penmanship designed to develop a handwriting legible, rapid, and easy of execution. Some time is spent in practice on business figures. During the latter part of the course drill is given on standard alphabets for use in plain or ornamental lettering.

Miss JACOBS, Mrs. BERGER.

One hour a week.

SECRETARIAL TRAINING 3.

[4 yr. hrs.]

This comprehensive course is planned to prepare the student for actual secretarial work. It is designed (a) to give practice in the varied duties required of a secretary in a number of different types of business, in the different departments of a business, and in professional positions, with special attention to detail, form, style, manuscript writing, intricate tabulations, and office methods; (b) to increase speed and accuracy in shorthand and typewriting; (c) to develop a broad general vocabulary and to give some knowledge of technical terms.

Mrs. ADAMS, Miss WILKINSON, Miss FERGUSON, Miss JACOBS, Mrs. DICKINSON.

Open to students who have completed *Shorthand-Typewriting 2.*
Five exercises (total, ten hours) a week.

SECRETARIAL TRAINING 4.

[2 yr. hrs.

This course is planned for students who desire to emphasize accounts rather than shorthand during the final year.

It is designed to give the student practice in the varied duties required of a secretary in a number of different types of business, in the different departments of a business, and in professional positions, with special attention to detail, form, style, manuscript writing, intricate tabulations, and office methods. A good workable speed and accuracy in shorthand and typewriting is maintained throughout the course.

Mrs. ADAMS, Mrs. COULTER.

Two exercises (total, four hours) a week.

SHORTHAND-TYPEWRITING 1.

[4 yr. hrs.

Shorthand (Gregg or Pitman). Elementary sounds and their shorthand representatives; the devices used to express phonetic combinations; word building; word signs and other contractions; phrasing; dictation. A thorough knowledge of the fundamental principles of shorthand may be gained in this course, and a speed of from fifty to sixty words a minute is acquired.

Mrs. ADAMS, Mrs. COULTER, Miss NORTHRIDGE, Miss SONDERGARD.

Typewriting. Instruction in the use and care of the typewriter; exercises for the development of proper technic in the operation of all mechanical parts of the machine and for the complete mastery of the keyboard through the sense of touch; letter writing; copy from straight matter; tabulation; transcribing from shorthand notes.

Miss JACOBS, Mrs. BERGER, Miss CONWELL, Miss SONDERGARD.

Five exercises (total, ten hours) a week.

SHORTHAND-TYPEWRITING 2.

[4 yr. hrs.

Shorthand (Gregg or Pitman). Systematic practice and drill in writing shorthand, with special emphasis on advanced phrasing principles. For the purpose of acquiring a broad general shorthand vocabulary, a wide variety of dictation is given: letters, speeches, and editorials. A speed of from ninety to one hundred words a minute on general matter is attained.

Miss WILKINSON, Miss FERGUSON, Mrs. BERGER, Miss NORTHRIDGE.

Typewriting. Practice in the transcription of shorthand and in copying typewritten exercises, printed matter, and rough drafts, for the attainment of accuracy. Special attention is given to spelling, business forms, and letter arrangement. During the year instruction is given in tabulation, alphabetizing, billing, and the preparation of checks, telegrams, form letters, and stencils.

Miss WILKINSON, Miss FERGUSON, Mrs. BERGER, Miss NORTH-RIDGE.

Open to students who have completed *Shorthand-Typewriting 1.*
Five exercises (total, ten hours) a week.

SHORTHAND-TYPEWRITING 5.

[8 yr. hrs.

Shorthand (Gregg or Pitman). A special course designed to give in one year a thorough knowledge of the principles of shorthand and an ability to take dictation at a speed sufficient for most secretarial positions. The work of the course, which is divided into three parts, includes (a) a study of fundamental principles, drills in shorthand penmanship, word building, word signs and other contractions, simple phrasing, dictation; (b) additional systematic practice in writing shorthand, with special emphasis on phrasing principles, a wide variety of dictation including letters, speeches, and editorials; (c) dictation covering a broad business vocabulary such as would be used in offices of various types, with emphasis placed on speed. At the end of the year the student should be able to write one hundred words a minute in shorthand and be able to read her notes with facility.

Mrs. ADAMS, Mrs. DICKINSON, Miss FORD.

Typewriting. A special course designed to give in one year a thorough knowledge of the fundamental principles of typewriting and to enable the student to operate a typewriter accurately at a good speed. The work of the course, which is divided into three parts, includes (a) instruction in the use and care of the typewriter, rhythm drills, drills for accuracy, practice in letter writing, use of carbon paper, centering, writing on cards, simple tabulation; (b) practice in transcribing, making copies from rough draft, writing different kinds of documents, using various forms for letters; (c) practice in form, style, manuscript writing, difficult tabulations, and office methods. Special emphasis is placed upon the development of speed in typewriting and transcribing.

Mrs. COULTER, Miss CONWELL.

Ten exercises (total, twenty hours) a week.

SHORTHAND-TYPEWRITING 7.

[2 yr. hrs.]

Shorthand for Personal Use. This course is planned for those who wish to learn a brief system of writing for general, personal use, such as for making lecture notes, writing abstracts or memoranda, personal correspondence, and various kinds of composition. At the end of the course, the average student should know the system thoroughly and should be able to write legible shorthand notes, which need not be transcribed, at a speed at least double that of longhand.

Mr. ELDRIDGE.

Typewriting. A brief, intensive course planned to give, in the shortest possible time, a mastery of the keyboard by the sense of touch. The course includes practice in letter writing, card writing, simple tabulation, centering. Training in speed and accuracy is secured through copy tests and speed drill.

Miss NORTHRIDGE,

Shorthand: Three hours a week.

Typewriting: Two hours a week.

An elective for students in the School of Social Work and for such other students as secure permission from the Director of the School in which they are enrolled.

SHORTHAND-TYPEWRITING 8.

[2 yr. hrs.]

Medical. This course is planned for those who desire to secure positions as secretaries with doctors or as record secretaries in hospitals. In the shorthand period an effort is made to secure facility in the writing of a broad scientific vocabulary, particularly those terms likely to be used by physicians. In the typewriting part of the course the student is taught the proper form to be used in writing case histories, including record cards for the files.

Students who elect this course are given special problems in medical filing in the course in *Filing 1*.

Miss WILKINSON, Miss ENGLER.

Open to students who have a grade not lower than C in *Shorthand- Typewriting 2*.

Shorthand: Two hours a week.

Typewriting: Two hours a week.

SHORTHAND-TYPEWRITING 9.

[2 yr. hrs.]

Legal and Reporting. This course is planned for those who desire to secure positions in lawyers' offices or to become shorthand reporters. In the shorthand period legal procedure is taught, legal vocabulary

is developed, and an effort is made to secure high speed in writing depositions, testimony, and charges to jury. In the typewriting part of the course legal forms and papers are studied and written.

Mr. ELDRIDGE, Mrs. ADAMS, Miss FORD.

Open to students who have a grade not lower than C in *Shorthand-Typewriting 2.*

Shorthand: Two hours a week.

Typewriting: Two hours a week.

TYPEWRITING 6.

[1 yr. hr.]

A brief, intensive course planned to meet the special needs of library students. Mastery of the keyboard by the sense of touch is followed by practice in writing cards and letters, using carbon, tabulating book orders and book lists, arranging tables of contents, centering title pages, and making ornamental book covers.

Miss FERGUSON, Miss JACOBS, Mrs. DICKINSON.

Two hours a week.

SOCIAL ECONOMY *

SOCIAL ECONOMY 1.

[4 yr. hrs.]

This course is developed around four interrelated themes: an introduction to the fields of social work and the development of professional standards; methods of studying the social results of poverty in community life; social programs dealing with the factors of social breakdown; and social thinking as revealed in social work literature.

Miss HARDWICK, Miss WILLS.

Three class hours and field work (total, six hours) a week.

SOCIAL ECONOMY 2.

[1 yr. hr.]

Lectures, followed by round-table discussions of the principles and methods of case work. Special emphasis is laid upon the resources of the small town and rural community, and on the mental hygiene aspects of case work problems.

Miss PARSONS.

Two hours a week during the second half.

STORE SERVICE EDUCATION

Courses given at 19 Allston Street are outlined in the special Bulletin of the Prince School of Store Service Education.

* Courses given at 18 Somerset Street are described in the special Bulletin of the School of Social Work.

INFORMATION

All requests for application forms or for information with regard to the College should be addressed to the REGISTRAR OF SIMMONS COLLEGE, 300 THE FENWAY, BOSTON, MASSACHUSETTS.

Copies of the other parts of the Catalogue, as well as of other publications of the College, are furnished on application to the Registrar of Simmons College. They include

SIMMONS COLLEGE BULLETIN

Summer Session Number

1934

VOLUME XXVII

Number 5

March, 1934

It must be understood that the College reserves the right to make changes, if necessary, either in the courses announced or in the schedule of hours. If there is not a sufficient number of applicants for a course by June 18, the course may be withdrawn.

Issued six times a year by Simmons College in the months of July, September, November, January, March, and May, at 10 Ferry Street, Concord, N. H. Editorial Offices: Simmons College, 300 The Fenway, Boston, Massachusetts. Entered May 2, 1933, as second class matter at the post office of Concord, N. H., under act of August 24, 1912.

GENERAL INFORMATION

THE SUMMER SESSION of 1934 of Simmons College opens on Monday, July 2, and closes on Friday, August 10. No required exercises are held on Saturdays, except on the first Saturday, July 7, when all Monday classes meet.

OFFICERS OF ADMINISTRATION

BANCROFT BEATLEY, A.M., Ed.D.	<i>President</i>
DORA BLANCHE SHERBURNE, S.B.	<i>Registrar</i>
MARJORIE BURBANK, A.B.	<i>Recorder</i>
RICHMOND KNOWLTON BACHELDER, B.B.A.	<i>Bursar</i>
ELEANOR GRAVES BRACKETT, S.B.	<i>Assistant in charge of the Library</i>

OFFICERS OF INSTRUCTION

The officers of instruction include members of the regular instructing staff of Simmons College and also special instructors and lecturers whose services can be secured for the College only during the summer.

ADMISSION REQUIREMENTS

The greater number of the courses are open to men and women who have had the equivalent of at least a high school education. While there are no formal entrance examinations, the instructor in charge of a given course may require of those who wish to enter his course any preliminary test, formal or informal, which he may consider necessary. The instructor may also require the withdrawal from the course of any students whose preparation for the work he concludes is inadequate. Any specific prerequisites are stated in the descriptions of the courses.

Admission to courses in the School of Public Health Nursing is restricted to registered nurses who meet the professional requirements stated on page 17.

APPLICATION FOR ADMISSION

Application for admission (except to the School of Public Health Nursing) should be made upon the blank form beginning on page 19 of this bulletin, and the form should be sent to the Registrar of Simmons College, Boston, Massachusetts. Since the enrollment in some of the courses offered is limited, it is distinctly advisable to file applications as early as possible. If there is not a sufficient number of applicants for a course by June 18 the course may be withdrawn.

Application for admission to the School of Public Health Nursing should be made on a special form which may be obtained from the Director, School of Public Health Nursing, Simmons College, Boston. Each applicant is notified by the Director as to whether or not she is accepted.

REGISTRATION

Registration for the summer courses is held from 9.00 A.M. to 12.00 noon and from 1.00 to 3.00 P.M. on Monday, July 2, and during these hours instructors may be consulted in their offices. *The schedule of classes goes into effect Tuesday morning, July 3.*

FEES

The maximum tuition fee for a programme including as many courses as the schedule permits is \$45; except in the School of Library Science where the maximum is \$50. The fees for each course are stated in the description of the course. Laboratory fees are in addition to the tuition fee.

All charges, including tuition, laboratory, and residence fees, are payable at the time of registration and before classes are attended. No reduction in the tuition fee is made for late entrance.

Students paying the maximum tuition fee have the privilege of visiting, as auditors, classes for which they have not actually registered (except in the School of Library Science), provided permission is obtained from the instructor in charge.

WITHDRAWALS

No refund is made for withdrawal (from a course or from the summer session) occurring after the first week of the summer session. The first week ends on Saturday, July 7.

DORMITORIES

South Hall, a College dormitory at 321 Brookline Avenue, is open to women students. It is best reached by the busses passing through Brookline Avenue. These busses leave Kenmore Station, which is reached from the North Station by Boylston Street subway cars, from the South Station by the subway to Park Street, and from the Back Bay and Huntington Avenue Stations by cars passing through the Copley Square subway station. Students should leave the busses at Short Street.

Except for a few suites of two rooms each, there are only single rooms. Bed linen, towels, one pair of blankets, cot bed, bureau, chairs, and study table are supplied by the College. Students are expected to care for their own rooms.

Rooms are assigned in the order of the receipt of the required deposit of \$5. The deposit is credited upon the student's bill for residence, but is *forfeited* if the application for a room is withdrawn. Checks or money orders should be made payable to Simmons College.

The charge for a single room and board, not including luncheons on the days when classes are in session, is \$60 for the summer session (from the afternoon of July 1 to the morning of August 11). For any period less than the full session the charge is \$11 for each full week. For portions of a week the charge is \$2 a day, but there is no refund for week-ends spent elsewhere. The charge is the same for each person in a suite. Each student is required to pay on registration the total charge for her residence.

As a laundry is provided for the use of dormitory students, a fee of \$1, payable at the House Superintendent's office, is charged for this privilege.

COLLEGE BUILDINGS

The main College building, in which are held *all* registration and all classes, is situated at the southern end of the Fenway, and may be reached by all Brookline Avenue busses, which leave Kenmore Station, and by all Huntington Avenue cars. The Huntington Avenue cars should be left at Louis Prang Street, the Brookline Avenue busses at Pilgrim Road.

EXAMINATIONS AND RECORDS

Examinations are held at the close of the several courses. No provision is made for special examinations or reexaminations in summer courses. All records, which are based on the daily work and the examinations, are sent by mail not later than October to the permanent addresses given by the students at the time of registration.

CREDIT

The record indicates the value in points of courses which are accepted toward the degree of Associate in Science at Simmons College, and states that this credit in points is granted only to properly qualified students.

Undergraduates at Simmons College who wish to take summer courses to count toward the degree of Bachelor of Science must consult the directors of their schools *in advance* and receive permission from the Committee on Admission and Programmes.

The maximum amount of credit which may be granted to a student for the work of one summer is six points. Two points are equivalent to one year hour in the regular session (or two semester hours).

SCHOOL OF SECRETARIAL STUDIES NORMAL COURSES IN COMMERCIAL SUBJECTS

THE summer courses are designed for men and women who need a broader and more practical knowledge of the various commercial subjects or who desire instruction in the methods of teaching these subjects. While students who have completed a high school course or its equivalent are eligible for admission to the summer session, the courses are planned especially for teachers and for persons who are preparing to teach.

The courses are of three types:

1. *Subject Matter.* (Designated by the letter S in the title.) This type of course is intended primarily to present subject matter. No definite attempt is made to discuss methods of teaching, although reference may be made to such methods.
2. *Subject Matter and Methods.* (Designated by the letters S M in the title.) This type of course has a double aim: (a) to present in the briefest possible way the subject matter; (b) to outline the content of such a course and to discuss the best methods for presenting that subject to high school classes.
3. *Methods.* (Designated by the letter M in the title.) These courses are planned to present and discuss methods of organization and teaching. They are of two kinds: (a) courses which deal with the general problems of commercial education from the standpoint of the teacher, such as Commercial Education M; (b) courses which aim to present and discuss the best methods of teaching a specific commercial subject, such as Accounts M, Office Methods M, Short-hand M, and Typewriting M.

COMMERCIAL SUBJECTS

EDWARD HENRY ELDRIDGE, PH.D., *Professor of Secretarial Studies* and *Director of the School of Secretarial Studies*

HELEN GOLLER ADAMS, A.B., S.B., *Assistant Professor of Secretarial Studies*

JENNIE BLAKENEY WILKINSON, S.B., M.ED., *Assistant Professor of Secretarial Studies*

FLORA MCKENZIE JACOBS, *Assistant Professor of Secretarial Studies*

VIOLA GRACE ENGLER, S.B., M.B.A., *Assistant Professor of Secretarial Studies*

CLARE LOUISE SWEENEY, A.B., S.B., M.ED., *Assistant Professor of Secretarial Studies*

HELENA VERONICA O'BRIEN, S.B., LL.B., *Member of the Massachusetts Bar, Special Instructor in Commercial Law*

The fee for each course is stated in the description of the course, but the maximum tuition fee for a programme including as many courses as the schedule permits is \$45.

ACCOUNTS S 1.

Elementary Bookkeeping. A course in bookkeeping designed for those who have no previous knowledge of the subject. The assignments illustrate the use of all ordinary books of original entry and the ledger. Instruction and practice are given in the preparation of mercantile profit and loss statements and balance sheets, in closing the ledger, and in banking practice.

Assistant Professor SWEENEY.

[2 points

10.30 to 11.30 daily.

Fee, \$20.

ACCOUNTS S 2.

Advanced Bookkeeping. This course is designed for those who have a knowledge of the elementary principles of double-entry bookkeeping and who wish to teach bookkeeping.

The following topics are covered: partnership accounts, interest and discount, columnar cash book, special ledgers, controlling accounts, depreciation and reserves, imprest fund, good will, accounting for investments, the elements of corporation accounting, and statements for manufacturing concerns—subjects which often appear on examinations for teaching positions.

Assistant Professor ENGLER.

[3 points

9.30 to 10.30 and 11.30 to 12.30 daily.

Fee, two periods, \$25; one period, \$20.

ACCOUNTS M.

Principles of Teaching Bookkeeping. By means of lectures, class discussions and demonstration this course considers topics such as methods of approach, principles usually difficult for the pupil, classroom procedure, examining and grading work, the preparation of additional material, and the sequence of bookkeeping principles.

Assistant Professor ENGLER.

[2 points

1.00 to 2.00 daily.

Fee, \$20.

ADVERTISING S M.

This course presents the principles which underlie the various types of advertising, and the organization and administration of classes in advertising. Specific problems and illustrations are given throughout the course. Each student makes a loose-leaf notebook of the daily examples and constructively criticized reports which should be of help, especially in the teaching of the subject.

Professor ELDRIDGE.

[2 points

1.00 to 2.00 daily.

Fee, \$20.

BUSINESS ORGANIZATION AND MANAGEMENT S M.

This course includes a general study of the principles which underlie business. Among the topics considered are forms of business enterprise, finance, management, office management, wage systems, labor problems, purchasing, selling, advertising, banking, and financial statements.

Professor ELDRIDGE.

[2 points

10.30 to 11.30 daily.

Fee, \$20.

COMMERCIAL EDUCATION M.

A brief survey of the reorganization of secondary education serves as background for the study of the development and place of commercial education. The course also deals with the many problems which must be solved in the construction and administration of a sound commercial programme.

Assistant Professor WILKINSON.

[2 points

2.00 to 3.00 daily.

Fee, \$20.

COMMERCIAL GEOGRAPHY S M.

Industrial geography is studied by commodities, by regions and by economic factors—such as climate, topography, transportation, communication. This plan gives preparation for teaching as well as adequate knowledge of the subject.

Assistant Professor ENGLER.

[2 points

2.00 to 3.00 daily.

Fee, \$20.

COMMERCIAL LAW S M.

This course gives instruction in the fundamental principles of the law of contracts, agency, negotiable instruments, bailments, sales of personal property, partnerships, corporations, insurance, and guaranty. It also outlines a course in the teaching of commercial law for the use of teachers and persons who are preparing to teach.

Miss O'BRIEN.

[2 points

8.30 to 9.30 daily.

Fee, \$20.

OFFICE MACHINE PRACTICE S.

This course aims to give a working knowledge of common types of office machines. Individual needs are considered and each student's laboratory programme is adapted to his requirements. Actual practice may be had on the following: Burroughs, Comptometer, Dalton Multiplex, Marchant (hand and electric models), and Monroe calculators; Burroughs Bank Posting, Remington, and Underwood Bookkeeping machines; Ditto (flat and rotary models), Mimeograph, and Multigraph duplicating machines; Underwood Fanfold and Elliott-Fisher billing machines; the Dictaphone and Ediphone; the Teletype; and Yawman & Erbe, Library Bureau and Kardex filing units.

Other office machines are demonstrated and made available during the summer in accordance with student needs. At least one hour of outside practice daily is required.

Assistant Professor SWEENEY.

[2 points

9.30 to 10.30 daily.

Fee, \$20.

OFFICE METHODS M.

A course designed to study the methods of teaching office machines and clerical practice to high school students. Content of the course: the discussion of common class room problems, material available for instruction, text and reference books, various types of office machines, and methods of organizing units of work.

Students who register for this course should either take Office Machine Practice S in conjunction with it or should have a good knowledge of the operation of office machines.

Assistant Professor SWEENEY.

[2 points

11.30 to 12.30 daily.

Fee, \$20.

SHORTHAND S 1.

Elementary Shorthand (Gregg). This course covers the principles, word signs, and phrases of the system. It gives the teacher suffi-

cient knowledge to teach beginning shorthand and serves others as a good foundation for dictation with added review and practice. The course requires at least one hour daily of outside work.

Typewriting S 1 may be taken with Shorthand S 1 at an additional fee of \$10.

Assistant Professor ADAMS.	[3 points
<i>9.30 to 10.30 and 11.30 to 12.30 daily.</i>	Fee, \$25.

SHORTHAND S 6.

Personal Shorthand. This course in "a-b-c" shorthand is intended for college students and others who desire to attain in six weeks sufficient facility to be able to use shorthand for non-professional purposes, such as the making of lecture notes, the writing of abstracts and memoranda, and the taking of dictation at a moderate rate of speed. At the end of the session the average student should have an ability to write legible notes at a speed at least double that of longhand. One hour daily of outside practice is necessary.

Typewriting S 1 may be taken with Shorthand S 6 at an additional fee of \$10.

Professor ELDRIDGE.	[3 points
<i>9.30 to 10.30 and 11.30 to 12.30 daily.</i>	
<i>Attendance required both periods.</i>	Fee, \$25.

SHORTHAND-TYPEWRITING S 13.

Intermediate Shorthand and Typewriting (Gregg and Isaac Pitman). The periods devoted to shorthand include a rapid review of the principles together with intensive practice on word signs and phrases. Special penmanship drills are given. The dictation is of two kinds: (a) special matter to assist in review of principles, (b) general dictation designed to develop a good working vocabulary. The periods devoted to typewriting include a review of the keyboard through rhythm drills and speed tests, a review of letter forms, and transcribing from shorthand notes.

Shorthand: Assistant Professor ADAMS.	[4 points
---------------------------------------	-----------

Typewriting: Assistant Professor JACOBS.	
--	--

<i>Shorthand: 8.30 to 9.30 and 10.30 to 11.30 daily.</i>	
--	--

<i>Typewriting: 9.30 to 10.30 and 11.30 to 12.30 daily.</i>	
---	--

<i>Fee, four periods, \$30; two periods, \$25.</i>	
--	--

SHORTHAND-TYPEWRITING S 23.

The content of the course is practically the same as that of the third term of the second year of the regular Simmons College course in shorthand and typewriting. It includes drills in shorthand and

typewriting and systematic practice in transcribing articles and letters. It is open to persons who have acquired a speed of approximately eighty words a minute in shorthand and who can transcribe their notes with reasonable facility. Persons who do not desire credit for the course may register for two periods daily, provided their preparation is adequate.

Shorthand: Assistant Professor WILKINSON. [4 points

Typewriting: Assistant Professor WILKINSON.

Shorthand: 9.30 to 10.30 and 11.30 to 12.30 daily.

Typewriting: 8.30 to 9.30 and 10.30 to 11.30 daily.

Fee, four periods, \$30; two periods, \$25.

SYNTACTIC M.

Methods of Teaching Shorthand (Gregg). This course, which is planned primarily for teachers of Gregg shorthand, emphasizes the practical mechanics of the class period. Among the topics carefully considered are the value of penmanship drills in the shorthand lesson, word building, blackboard illustration, teaching of word signs and phrases, the value of shorthand reading, development of shorthand vocabulary and word-carrying capacity, the best methods of testing shorthand students at different points in their progress, the correlation of shorthand and typewriting instruction, sources and selection of dictation material, grading, keeping records, and supplementary textbooks. One hour daily of outside preparation is necessary in addition to the class room period.

Assistant Professor ADAMS. [2 points

1.00 to 2.00 daily. Fee, \$20.

TYPEWRITING S 1.

Elementary Typewriting. This course, which is designed to cover the fundamentals of touch typewriting and to give a mastery of the keyboard, includes keyboard exercises, copy from miscellaneous matter, centering, simple tabulation, letter forms, addressing envelopes, and use of carbon.

Assistant Professor JACOBS. [2 points

8.30 to 9.30 and 10.30 to 11.30 daily.

Attendance required both periods, if credit is desired.

Fee, two periods, \$25; one period, \$20.

TYPEWRITING M.

Typewriting Methods and Practice. This course affords opportunity for free class discussion of methods and interchange of ideas among experienced teachers of typewriting. It combines practice

and theory in the actual class performance of problems in type-writing known to present difficulties in teaching. Problems of teaching beginners and advanced students are discussed and a variety of methods presented. Assignments are given for reports on recent typewriting texts and reference books and these reports are discussed in class. This course is open only to persons who have a good working knowledge of the typewriter and are able to write by touch at a moderate rate of speed on a standard machine.

Assistant Professor JACOBS.

[2 points

2.00 to 3.00 daily.

Fee, \$20.

SCHOOL OF LIBRARY SCIENCE

ALL the courses offered this year are open to both men and women between the ages of twenty and forty-five years who are high school graduates. Those desiring the course in School Library Service, however, must enroll in at least one other of the courses.

Graduates of academic colleges may receive credit toward the degree of Associate in Science.

SCHOOL LIBRARIANS

While but one of the courses offered is called School Library Service, all of them are important for the school librarian who has to select, order, and catalogue her book collection. A librarian who cannot do that is not prepared to give service, which is the reason no one is admitted to the brief course in School Library Service without at least one of the other courses, and more than one is advised.

ASSOCIATE IN SCIENCE DEGREE

The degree is granted on the completion, with satisfactory grades, of thirty-two points, including at least six points in each of the following subjects: Book Selection, Cataloguing, and Reference, and at least three points in each of the following: Classification, and Library Administration. The other eight points may be chosen from other library science courses offered in various summers, such as Library Work with Children, School Libraries, Bibliography, and History of Libraries.

COURSES IN LIBRARY SCIENCE

JUNE RICHARDSON DONNELLY, S.B., B.L.S., *Professor of Library Science, and Director of the School of Library Science*

NINA CAROLINE BROTHERTON, A.M., *Associate Professor of Library Science*

MARY ELVIRA KAUFFMANN, A.B., S.B., *Instructor in Library Science*

ELIZABETH GRIFFITHS PARKER, A.B., S.B., *Assistant in Library Science*

The fee for each course is stated in the description of the course, *but the maximum total fee for any combination of courses is \$50.*

BIBLIOGRAPHY AND ORDER S 1.

A brief course on American trade bibliography with application to the field of ordering books for the library. Discussion of the order processes with practice in their use. Fifteen class periods and outside preparation.

Miss KAUFFMANN, Miss PARKER. [1 point *
1.00 to 2.00 Wednesday and Friday, and in alternate weeks on Monday
also. Fee, \$10.

THE BOOK COLLECTION S 1.

An elementary course designed to acquaint the student with the fundamental principles for the selection and the use of books in the small and medium-sized library. Those books bought to circulate for reading at home, and those to be used for study and research in the library are considered. The preparation includes the reading of a few books of various types, the examination of necessary aids, and the study of the reference books most essential in the average library.

Associate Professor BROTHERTON. [2 points *
11.00 to 12.00 daily. Fee, \$20.

CATALOGUING S 1.

Lectures, discussion, and reading on the principles and methods of constructing and arranging a dictionary catalogue, accompanied by the cataloguing of a set of books which illustrate the points covered by the course.

* *This credit in points is granted only to students who have passed satisfactorily at least three full years of academic college work.*

This course does *not* include instruction on how to classify books or arrange them on the shelves, for that subject is Classification, in which no course is offered this summer.

Miss KAUFFMANN, Miss PARKER.

[2 points *

9.00 to 10.00 daily and five laboratory periods a week to be assigned.

Fee, \$25.

HIGH SCHOOL LIBRARY SERVICE S 1.

A study of the methods used in work with young people of high school age. It deals especially with high school libraries, their organization, administration and equipment, but includes the reference service given by the public library to high school students.

Associate Professor BROTHERTON.

[1 point *

1.00 to 2.00 Tuesday and Thursday, and in alternate weeks on Monday also.

Fee, \$10.

TEXTBOOKS

THE BOOK COLLECTION S 1.

Mudge, I. G. *New Guide to Reference Books*, 5th ed., 1929.**

CATALOGUING S 1.

A. L. A. catalog rules.**

Sears, M. E. *List of subject headings for small libraries*, 3d ed. rev. and enl.**

HIGH SCHOOL LIBRARY SERVICE S 1. Fargo, L. F. *The Library and the School*.**

There is a slight additional expense for materials which may be obtained at the Simmons Coöperative Store on the opening morning.

* *This credit in points is granted only to students who have passed satisfactorily at least three full years of academic college work.*

** *The School of Library Science will rent copies for the summer, if desired.*

SCHOOL OF PUBLIC HEALTH NURSING

AT THE request and with the coöperation of the Massachusetts League of Nursing Education, the School of Public Health Nursing offers courses to nurses who are instructors, supervisors, or head nurses in schools of nursing, or who wish to prepare for such positions.

For admission to the courses in the summer session applicants must be registered nurses, graduates in good standing of schools of nursing of approved standards. Applicants must, in addition, have graduated from approved high schools. With the approval of the Director occasional exceptions may be made, provided professional qualifications are exceptional.

Applicants should fill out a special form which may be obtained from the Director, School of Public Health Nursing, Simmons College, Boston.

COURSES IN NURSING

MARJORY STIMSON, A.B., R.N., S.B., Assistant Professor of Public Health Nursing, and Acting Director of the School of Public Health Nursing

ANTOINETTE ROOF, Associate Professor of Education, Emerita

CAROLINE MAUDE HOLT, PH.D., Associate Professor of Biology

SUSIE AUGUSTA WATSON, A.B., R.N., S.B., Assistant Professor of Biology and Nursing, and Assistant Director of the Summer Session

ISABEL HUNTER DILL, R.N., Formerly Instructor, St. Luke's Hospital, New Bedford, Massachusetts

The fees for each course are stated in the description of the course. Laboratory fees are in addition to the tuition fee.

In order to register for a programme of more than two courses, permission must be secured from the Director of the School.

BIOLOGY S 1.

Anatomy and Physiology. This course includes a study of anatomy and physiology and the problems of teaching these subjects in schools of nursing. Lectures, demonstrations, recitations, and laboratory exercises.

Associate Professor HOLT.

[2 points]

9.00 to 1.00 Tuesday and Thursday; 9.00 to 10.00 Wednesday.

Tuition fee, \$20; laboratory fee, \$5.

EDUCATION S 1.

Principles of Teaching. This course presents principles and methods of teaching, with special application to the needs of head nurses, supervisors, and instructors in schools of nursing.

Associate Professor ROOF.

[2 points]

2.00 to 3.00 Monday, Tuesday and Thursday; 11.00 to 1.00 Friday.

Tuition fee, \$20.

NURSING EDUCATION S 1.

Teaching in Schools of Nursing. This course is a study of the standard curriculum, its use and adaptations. It includes also a discussion of such topics as classroom management, text and reference books, laboratory work, examinations, and grading in schools of nursing.

Miss WATSON.

[2 points]

3.00 to 4.00 daily.

Tuition fee, \$20.

NURSING EDUCATION S 2.

Nursing Procedures and Teaching Practice. This course includes demonstrations and discussions of standard nursing procedures and methods of teaching them in schools of nursing.

Miss DILL.

[2 points]

9.00 to 11.00 Monday and Friday; 10.00 to 12.00 Wednesday; 4.00 to 5.00 Tuesday and Thursday.

Tuition fee, \$20; laboratory fee, \$2.50.

ADVANCE REGISTRATION

APPLICATIONS should be filed with the Registrar, Simmons College, 300 The Fenway, Boston, Massachusetts, as early as possible, since the enrollment in some of the courses offered is limited. Students are enrolled in the courses which they desire in the order of the receipt of the applications.

Please use the form below for registration. It may be sent by mail. Additional application forms may be obtained by addressing the Registrar.

THE SIMMONS COLLEGE ASSOCIATES

An advisory board known as the Simmons College Associates has been organized to aid in the interpretation of the College to the community and to promote the physical and social welfare of the students. The Associates consist of the Dean, the women who are members of the Corporation, and such persons as may be appointed to aid in furthering the interests of the College.

Martha Eleanor Hanson	Helen Bright Prince, S.B. in Ed.
Blanche Catharine Harriman	Mary Ellen Record
Mary Gladys Henderson	Helen Rosinska
Dorothy Margaret Knapp	Ruth Marion Swanson
Grace Mildred Lee	Esther Tedford
Constance Martha Martin	Barbara Veselak
Ada Queen Wight	

ALUMNAE HONOR AWARDS

1933-1934

Dorothy Squire

Iona Jessie Seach

REGISTER OF STUDENTS

THE following abbreviations are used:

- A* Household Economics
- B* Secretarial Studies
- C* Library Science
- D* General Science
- E* Social Work
- F* Physical Education
- G* Store Service Education
- H* Public Health Nursing
- K* English
- L* Landscape Architecture
- uncl.* unclassified

When no Roman numeral follows the letter, the student is registered in a regular four-year programme, the year of classification being represented by the Arabic numeral. The Roman numerals indicate special programmes designated by the following symbols:

- AIII* One-year Programme in Institutional Management
- BII* One-year Programme in Secretarial Studies for College Graduates
- CII* One-year Programme in Library Science for College Graduates
- CIV* One-year Programme in Library Work with Boys and Girls
- DIII* Two-year Pre-medical Programme
- DIV* Two-year Programme in Public Health and Laboratory Training for College Graduates
- EII* Two-year Programme in Social Work for College Graduates
- EIII* Two-year Programme in Social Work Leading to the Certificate
- GI* One-year Programme in Store Service Education
- HI* Five-year Programme in Public Health Nursing
- HII* One-year Programme in General Public Health Nursing
- HV* Half-year Programme in Preparation for Schools of Nursing
- HVI* Four-month Programme in Public Health Nursing
- KIII* One-year Programme in Writing and Editing

The College dormitories, situated in Boston, are designated as follows:

A.H.	Appleton House, 291 Brookline Avenue	LON gwd 8564
B.H.	Bellevue House, 78 Pilgrim Road	LON gwd 9184
Bk.H.	Brick House, 76 Pilgrim Road	LON gwd 9006
Br.H.	Brookline House, 281 Brookline Avenue	REG ent 3599
E.H.	East House, 2 Short Street	LON gwd 8673
L.H.	Longwood House, 46 Pilgrim Road	LON gwd 8769
No.H.	North Hall, 86 Pilgrim Road	LON gwd 9002
P.H.	Pilgrim House, 54 Pilgrim Road	LON gwd 8743
So.H.	South Hall, 321 Brookline Avenue	REG ent 2921
St.H.	Students' House, 4 Short Street	LON gwd 9094
W.H.	West House, 94 Pilgrim Road	LON gwd 9121

The College houses which are situated in Brookline are designated as follows:

C.H. 14	14 Newell Road	LON gwd 9053
C.H. 21	21 Francis Street	LON gwd 8945
C.H. 26	26 Francis Street	LON gwd 8936
C.H. 36	36 Francis Street	LON gwd 8935
C.H. 240	240 Kent Street	LON gwd 8946

Unless otherwise stated, all addresses are in Massachusetts. Where two addresses are given, the local precedes the home address.

GRADUATE DIVISION

Abbott, Edith Mildred, *A4* (A.B., *Wheaton*, 1931), 7 Bartlett Ave., Arlington; 116 Harlem Ave., Bridgeport, Conn.
